We then started with "Fight Song" with part singing until the end of the chorus. We adjusted the volume of the alto's they were too loud for the accompaniment. We moved onto " When you believe" we had load shedding at this point, so sang it accapella. We sang verse 1 and the chorus.
05-Feb	8:30	1hr				We first started with some of the classes talking about their new ceilings and their teachers hope to get aircon! which was explained to the students. Then I taught the students solfa with hand signs. We moved onto "Slippery fish" I explained what an octopus and a great white shark were. They repeated the facts stated. I asked the students to give me ideas of wild animals. This helped us to sing "He's got the whole world" which we substituted the wild animals suggested by the students in the song.
