

*“Saving lives through
organ and tissue
donation and
transplantation”*

¿What is DTI FOUNDATION?

DTI Foundation

DONATION & TRANSPLANTATION INSTITUTE

02:32

DTI Foundation is a non-profit organization with a **30-year trajectory**.

International leaders in organ, tissue, and cell donation and transplantation.

TPM / Prestigious international training system created and managed by DTI Foundation: more than 20.000 doctors and nurses trained in 113 countries since 1991.

Our commitment

Increasing organ donation worldwide

Improving the quality of life in society

Supporting regenerative medicine

We train healthcare professionals in the field of organ and tissue donation and transplantation.

We collaborate to ensure that everyone has access to organ and tissue donation and transplantation.

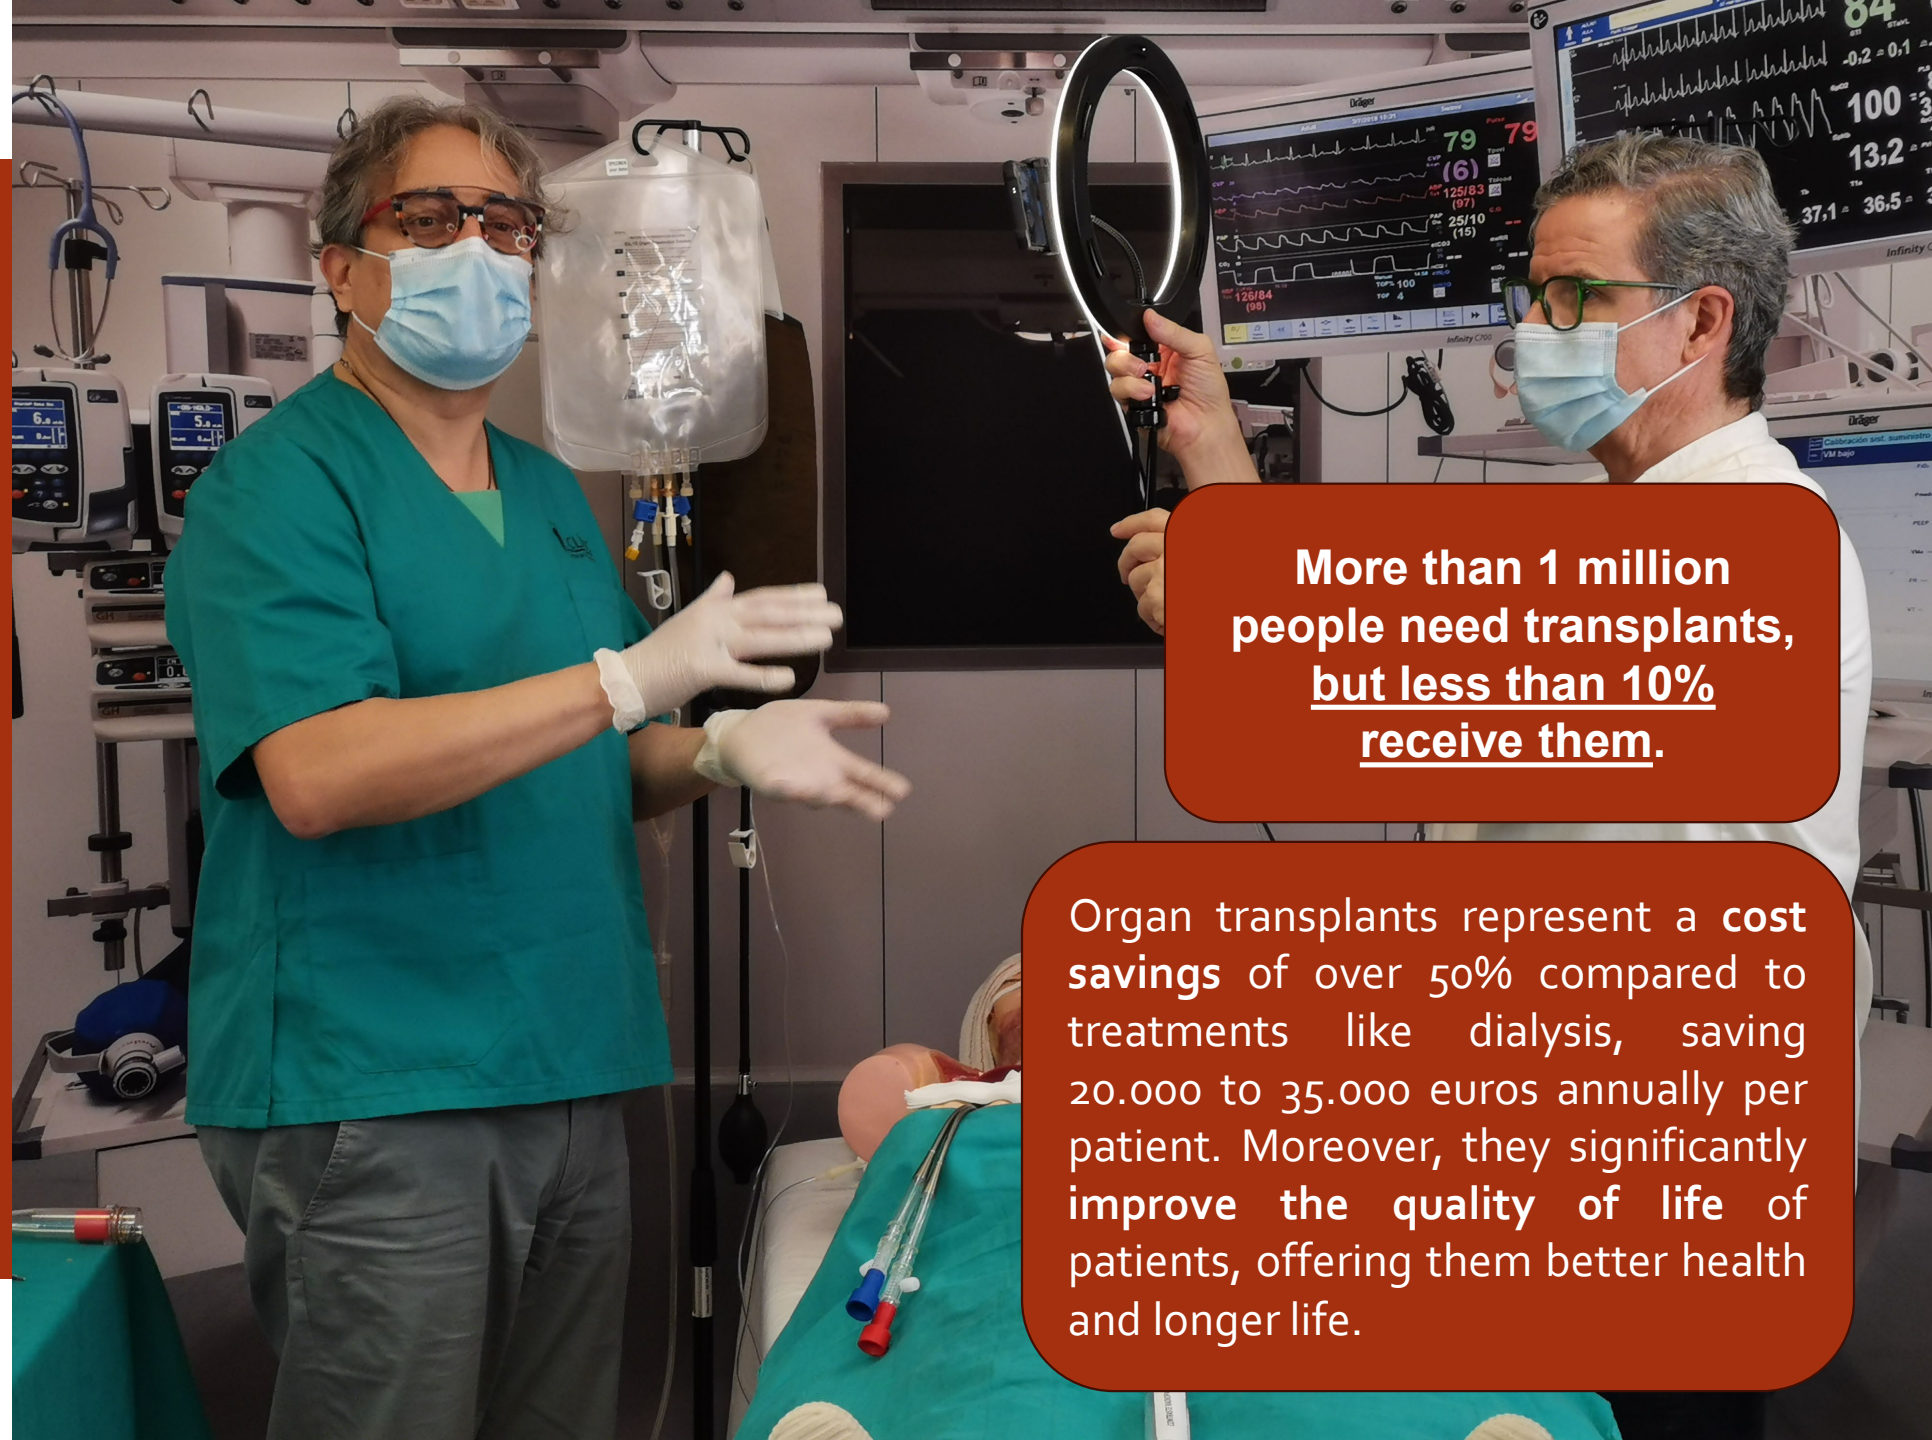

We provide advice to hospitals, organizations, and authorities at local, regional, national, and international levels.

Impacto de DTI en los ODS

¿Why is
important
organ
transplant?

**More than 1 million
people need transplants,
but less than 10%
receive them.**

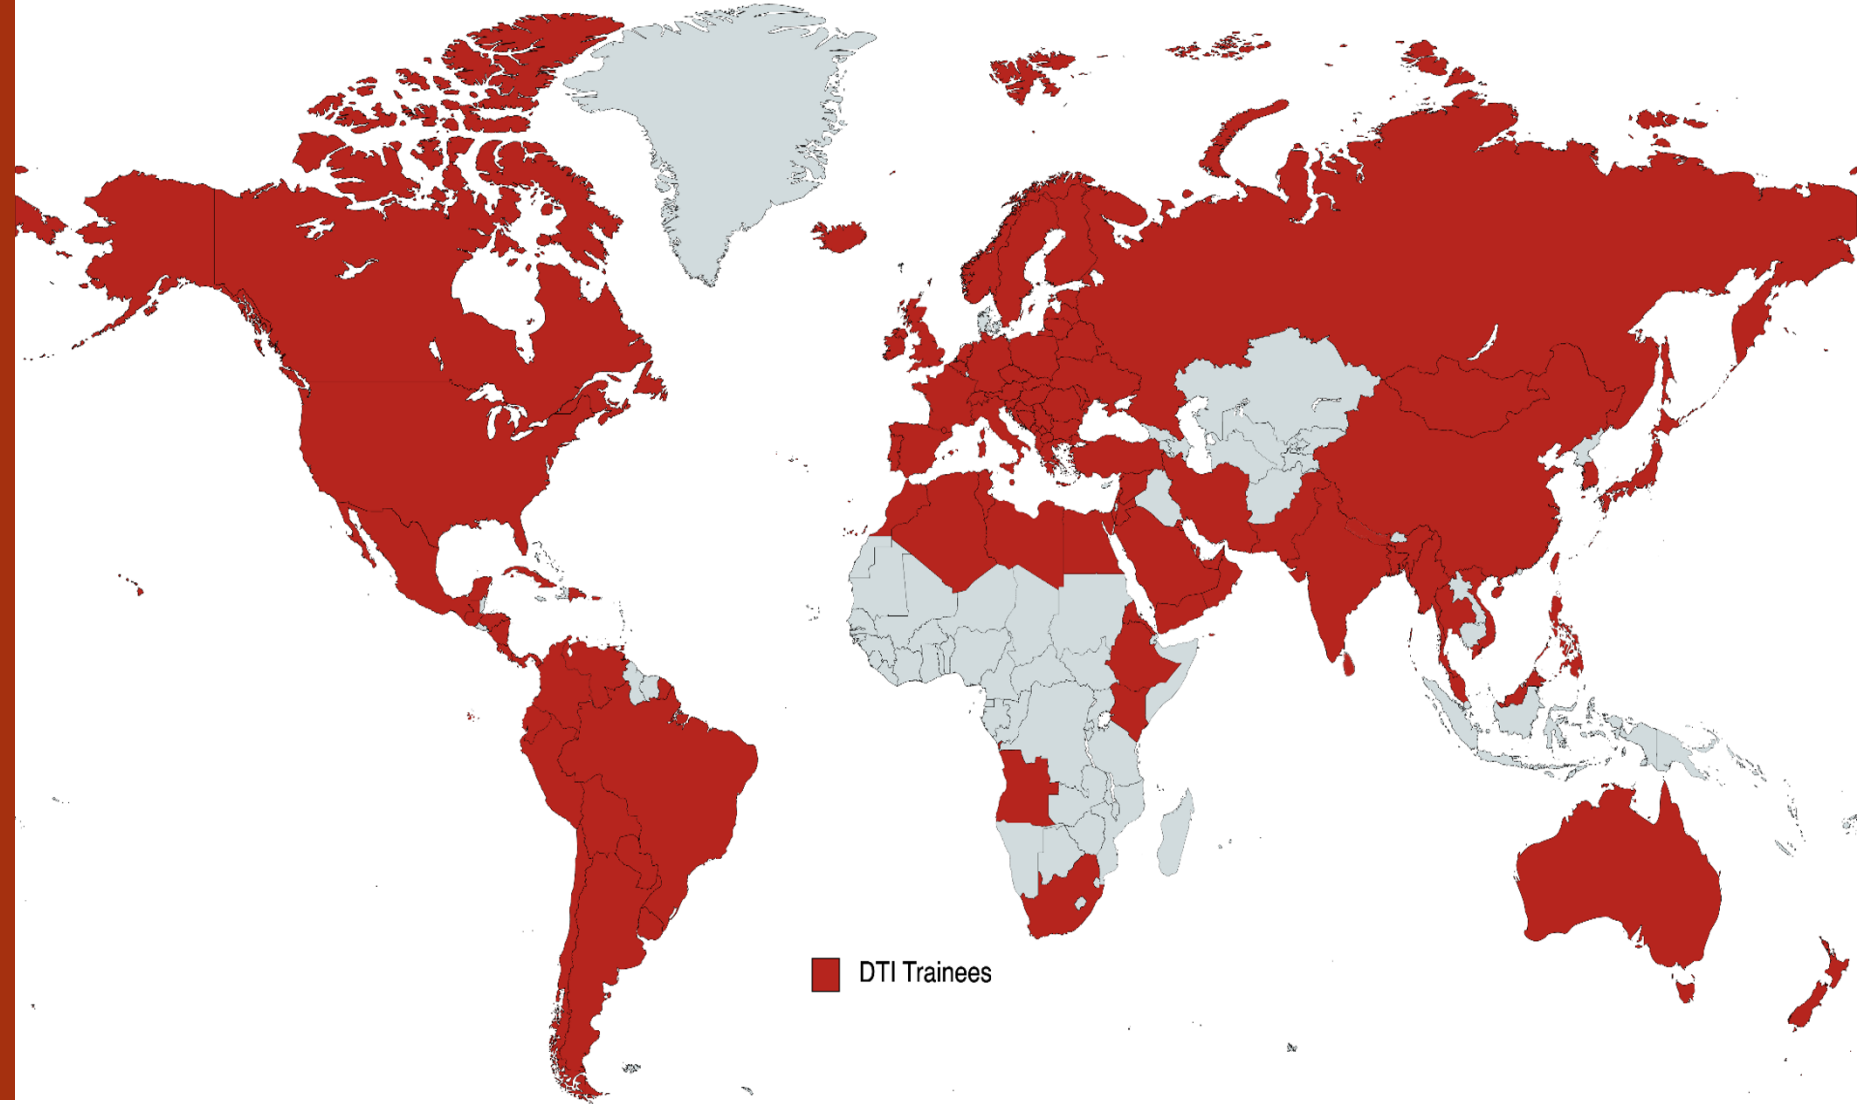

Organ transplants represent a **cost savings** of over 50% compared to treatments like dialysis, saving 20.000 to 35.000 euros annually per patient. Moreover, they significantly **improve the quality of life** of patients, offering them better health and longer life.

113 countries
benefited

More than 20.000
professionals trained

Global impact of DTI Foundation

**Collaboration with hospitals,
national transplant organizations,
universities:**

DTI Activity

Lead training and international cooperation to export the best international practices

Enable the engineering of artificial organs by providing the necessary cells and tissues and facilitating efficient drug research

Social performance dimensions of DTI Foundation

Impact

Save and improve the lives of current patients and establish stable links with health systems worldwide

Provide much more reliable research models
Advance towards a future of healthy longevity through the availability of artificial organs

2024

22 training courses with > 1,000 students globally

12 international high-level collaborative cooperation projects

Impact in > 30 countries on 4 continents

14 R&D protocols with local and international hospital and research institutions

¿How can we collaborate?

¿How can we collaborate?

TRAINING ALLIANCE

- Selection of key experts in different countries of the world to provide the healthcare professionals with the best international practices for implementation in their respective country.
- Advanced training with the International Master in Donation and Transplantation of Organs, Tissues, and Cells certified by the University of Barcelona.
- Three-month stay in Spanish hospitals and visits to the main transplant organizations in the country. Sponsors can have visibility both in materials and project dissemination.

¿How can we collaborate?

IMPACT ALLIANCE : TRAINING AND INTERNATIONAL COOPERATION

- Visit of DTI expert staff to the country to study the situation and outline an action plan. Visit to Barcelona by professionals to study the Spanish model of organ donation and transplantation.
- Customized TPM course to ensure knowledge transfer and learn through practical simulations. Follow-up with the hospital/institution to analyze the program's implementation.
- Sponsors can be part of visits, courses, and meetings. They can also have visibility in materials and project dissemination.

¿How can we collaborate?

**TISSUES AND CELLS FOR
RESEARCH**

**NEW ORGAN DONATION
TECHNIQUES**

ORGAN PERFUSION MACHINES

The background features a large, semi-transparent watermark of the letters 'DTI' in a serif font. A solid red square is positioned in the top-left corner. The text '¿Why collaborate with DTI?' is written in a red, sans-serif font, positioned to the right of the red square and above the 'DTI' watermark.

¿Why collaborate with DTI?

Increase the number of
available organs

Improve transplant
outcomes

Enhance the quality of life
of our citizens

Work towards a future
where organ availability is
not the limiting factor **for**
saving lives

Enhance ESG by collaborating with DTI Foundation
