INTRODUCTION

Animalix we integrate Ericka Brand Moreno, Juan Carlos Velasco Romo, Josue Martin Lopez Reyes and solidarity support as Alda González- Elias Díez. Consistent and committed to our work started on 24 January 2014, when we Animalix SC (initial SC of San Cristobal), but without being aware of everything that involved the protection of animals "irresponsible owners" today we continue with enthusiasm, learning from our mistakes and enhancing our capabilities. Let stealing a little time to our work, where we all get individual and family support, because it is noteworthy that ANIMALIX AC is not anchored by any national and international public or private institution, and who integrate Animalix AC not perceive pay for our time and work. We do "for art's sake"

However, there have been desperate times when we wanted to "throw in the towel" give up because we have family, economic, emotional pressures and demands time AC Animalix and resources; However, when more calmly analyze the situation, we tell ourselves that our work will be well worth it: we like to think we are bringing a little bit to make this world better. We like to think we're improving a little the lives of our four-legged friends.

The World Organization for Animal Health (OIE) defines the term animal welfareas "the way an animal is coping with the conditions of their environment. An animal is in good state of welfare if (as indicated by scientific evidence) it is healthy, comfortable, well nourished, safe, able to express innate behavior, and if not suffering from unpleasant sensations of pain, fear, and distress". Animalix AC works in this regard, as will be seen below:

"I do not care whether an animal can reason. I just know that is able to suffer and therefore I consider my neighbor" (Albert Schweitzer, Nobel Peace Prize, 1952).
1. ANIMAL WELFARE

1.1. Dogs Rescue and Rehabilitation

There is no day that dogs and cats are not run over, many lose their lives, others are crippled or maimed. Only a few receive help from protective groups or of conscious people who do not abandon them to their fate. One impediment is that no money or institutional support to address many cases. On the other hand, continuously, and especially in tourist influx times increase exponentially poisoning cases.

In many households live animals starving because they are not fed not have water available. They are never vaccinated and wormed living so exposed to various diseases; if injured are not taken care when they are sick and throw them into the street. Bitches, repetitively and without any control, have litters throughout their reproductive life, like male dogs; They are never sterilized and this increases the risk of suffering sexual diseases, cancer transmission, among others.

Other animals live chains tied to a meter, watching day and night ever since his confinement, sleeping on his stool, stuffed with fleas and ticks. Also, many animals have no shelter from the sun and rain, heat and cold, living unpleasant sensations of pain and discomfort.

Therefore, Animalix AC has conducted 28 rescue dogs and some cats, which have rehabilitated and placed for adoption, some of them are: Almond, Doll, Casimiro, Xena, and so on. Stand out among all Berni, a small hip fracture, probably was hit, we do not know how long he was crawling seeking shelter and food, we humanly possible to have a decent life, finally we help them to die (like other 3 furry friends for whom we could not do more than accompany his departure with tears in his eyes). Others have fared better as Samson only a lame hind leg or Chocolín that scarce three months almost died of scabies and malnutrition.

“We do not care whether an animal can reason. I just know that is able to suffer and therefore I consider my neighbor” (Albert Schweitzer, Nobel Peace Prize, 1952).
“I do not care whether an animal can reason. I just know that is able to suffer and therefore I consider my neighbor” (Albert Schweitzer, Nobel Peace Prize, 1952).

On the other hand, in the case of San Cristobal de Las Casas, we do not know official statistical sources to report on about dogs and cats on the streets, who have been part of local authorities mention that between 8-20000 dogs wandering around. Therefore ANIMALIX AC will not insist that sterilization is the only viable and humanitarian solution to combat overpopulated on public roads, and the harmful effects that this implies for both the animals themselves to people and the environment. Therefore a cornerstone of our work is sterilization.

We have organized and co-organized eight campaigns: In total, we have outstanding one or maybe two, for October and early December: 5 were inexpensive and 2 completely free thanks to the human and economic support of the Zero Street Guadalajara, Jalisco Foundation; the support of the Municipal Control Center Canino (CECAM) and groups: Sterilize San Cristobal, Dame una Pata, Chuchos Inn, Cooperativa Visions, tz'ite. And help local employers and colleagues and fellow volunteers.

Of these, the latter was part of the "Adopt a Campaign," which is that each organization finances 50% of the costs. In total, from all campaigns, they have managed to sterilize 940 dogs and cats. The quantitative impact is that at least six months after birth sterilization stopped around 7 thousand animals.

"I do not care whether an animal can reason. I just know that is able to suffer and therefore I consider my neighbor" (Albert Schweitzer, Nobel Peace Prize, 1952).

Grand total 940

A family of the Tzotzil ethnic and Chuchita, waiting their turn. February 24, 2018.

Linda Martin, teaching children Drawing Workshop. In the background, the pet registration for surgery, 22 2018.

"I do not care whether an animal can reason. I just know that is able to suffer and therefore I consider my neighbor" (Albert Schweitzer, Nobel Peace Prize, 1952).
1.3. Free medical consultations

What important have been the free medical consultations provided by the MVZ. Salvador Zarate. Many low-income families, but responsible and loving with their pets have benefited, and above 122 dogs and cats were cured of their illnesses, injuries, fractures, infections, strokes and so on. It was the case of Xena, she was found with a broken leg and exposed bone; Chocolín, or four wounded dogs in Jose Castillo Tielemans market.

This free, redeemed for advertising campaigns on radio and social networks by Play Hits 93.7 FM (another sponsor) means for AC Animalix an important action.

“"I do not care whether an animal can reason. I just know that is able to suffer and therefore I consider my neighbor” (Albert Schweitzer, Nobel Peace Prize, 1952).
1.4. Vaccination and deworming campaigns

Protection together with the organization. Control and Welfare Domestic Animals (PROCObIFD), we conducted two campaigns rabies vaccination and deworming of dogs and cats. Thanks again, as in 2017, the City Council Alderman and Dr. Carlos Herrera. Gloria Molina, head of the Zoonosis Program Health Jurisdiction II Altos, Secretary of Health. And in particular the MVZ. Luis Mendez, for his selfless work for our four-legged friends.

It was a shame not to continue these campaigns, but the sources of funding and sponsorship ran out. It was decisive social and political chaos that lives the state of Chiapas, whose public hospitals suffering from acute shortages of medicines for people, let alone animals.

The MVZ. Luis Mario Mendez desparasitantes providing suspensions and rabies vaccines for pets of responsible owners. March 17, 2018.

"I do not care whether an animal can reason. I just know that is able to suffer and therefore I consider my neighbor" (Albert Schweitzer, Nobel Peace Prize, 1952).
2. PROMOTION WITH EDUCATIONAL SUPPORT CANINE ADOPTION

Among the dogs we have rescued and rehabilitated, and dogs and cats reported to us as lost and stay in temporary homes, which we followed them and advise its adoption until October have been welcomed by new families 62 dogs and cats. We want to be more, but time is beyond us to meet all cases where we ask for help. And we do not have a shelter to shelter many, our limit is 20 constant dogs, we have greater capacity. In addition to adoption filters necessary to ensure that the adoptable have a decent life, as they have already suffered enough to deliver first request.

Generally, a person or a family begins the process of adoption and emits no complaints of any kind or makes excuses for wanting to skip the filters, it is a good adopter. Otherwise case from the beginning who expressed their discomfort. We analyze attitudes, review the responses to the format of adoption, visit the homes, we test one week to the pet and if there is human-animal affinity, adoption materializes. We never carry a pet without first explained. It is thanks to this protocol we can say that most adoptions have been successful, ie dogs and cats that have given up for adoption live in welfare, responsible owners who respect and want.

Sometimes it happens that a dog has problems adjusting to their new home, and manifests with some sort of negative behavior, in those cases when our and our partner and companion dog trainers: Juan Alda and help correct these behaviors, which generally tend to be propitiated and fomented by humans and not animals.

"I do not care whether an animal can reason. I just know that is able to suffer and therefore I consider my neighbor" (Albert Schweitzer, Nobel Peace Prize, 1952).
3. SHARES OF ANCHOR

3.1. Perrock & Roll 2018

Is becoming an annual tradition this musical, family, friendly event, among supporters of the pro causes animal, in the city of San Cristobal de Las Casas. This year the event was attended by over 200 people: children, youth, adults, seniors. Musicians fine, squandering talent on stage. So great was the desire to show solidarity we had to leave out some musical bands, because not enough time to include them. There was music, prizes, videos, information and joy.

We thank all the bands: racoon dog, Trisono, Raizz, Pony York, Shinigami, Rocker, Y2K. And Emilio Gómez, Director of Cultural Teaching Center for providing space for the Perrock. And to everyone for supporting this noble cause.

Jair special recognition for supporting us for contacting the bands, organizing, presenting, conducting the program, while we were doing our fundraising activities, among others. A Ana Avelar for poster design and courtesies BEBOP CLUB.

“I do not care whether an animal can reason. I just know that is able to suffer and therefore I consider my neighbor” (Albert Schweitzer, Nobel Peace Prize, 1952).
3.2. Orthocroquetón

Perrock & Roll as the Orthocroquetón is another great initiative, is in charge of Odontóloga Yurima Cancino, who for the second year Animalix sympathizes with AC and people to redeem a dental cleaning 3 kg of hash dogs or cats. About 40 people attended the clinic ORTHOCENTER beautify your smile and leave your donation.

With such action is found that if we unite as citizens in noble causes, the nature that is, we could change our neighborhoods, our city.

3.3. Give us a leg or Ser Pet Friendly

It really gives a lot of joy to people increasingly support our work. This year we increased more than twice cash donations over the previous. We have no doubt that this is indicative of the trust that exists to Animalix AC. And above all, that the work done so much for us, for all animal welfare groups from the city of San Cristobal de Las Casas, is gradually being recognized and seen as important. We remember almost five years we started with this humanitarian work, just we received a donation. Today the situation has changed significantly. Thank you for your trust, we are not going to disappoint.

"I do not care whether an animal can reason. I just know that is able to suffer and therefore I consider my neighbor" (Albert Schweitzer, Nobel Peace Prize, 1952).
4. EDUCATION CITIZEN (SENSITIZATION)

4.1. Against animal abuse in San Cristobal

Unfortunately, many people think that poisoning dogs and cats living on the streets solves the problem of overpopulation, accumulation of droppings on sidewalks or street fighting of animals. Poison a living being, is cruel and inhuman act, the animal suffers severe pain, unspeakable suffering. Stop poison on public roads is not only dangerous in itself, but because it can cause a fatal accident if a child, a homeless ingest; pollutes the environment and is potentially dangerous to other animal species such as pigeons and other birds. For this reason, the antivenom AC Animalix campaign is permanent.

4.2. Events that promote citizenship education and inter-species respectful relationships.

We are living in a world of violence, grim legacy that we are leaving to future generations. Everyone should concern the data that international measurements report about our country, for example, presented by the Institute for Economics & Peace, based in Sydney, Australia, in its report 2015 Global Peace Index ranked Mexico at the site 144 between most violent of a total of 162 and in 2016 Global Peace Index, at 140 of 163 countries.³

Therefore, it is understandable what the INEGI unveiled in 2015 and was widely reported in the media: Mexico ranks third [in the world] in cruelty to animals, according to figures from the National Institute of Statistics and Geography (INEGI), at the same time are dogs who position themselves as those who suffer more often (…)⁴.

Violence toward animals is manifested through rape, torture, beatings, neglect, indifference, hunger, lack of respect for its being alive; nothing new that suffered by millions of human beings whose rights are established in legislation unlike animals. Not to forget that the first rung of the ladder of violence against animals that are defenseless. To ignore this situation is to naturalize violence. Willy-nilly, we are complicit by omission.

*I do not care whether an animal can reason. I just know that is able to suffer and therefore I consider my neighbor“ (Albert Schweitzer, Nobel Peace Prize, 1952).
A person, child or adult, man or woman, who learns the "values" of attacking and harming the weakest for fun, relief, anger or other feelings, then continues to work with other children (as), women or elderly almost always the most vulnerable. Maltreatment and torture become everyday, and the assailant lose or forget the sense of compassion and respect for life, to stop caring whether the weakest being is four or two legs.

Our belief in ANIMALIX AC is that as citizens we have an obligation to contribute and join efforts with government authorities, institutions, organizations and individuals who share our concern to meet the challenge of the ladder of violence begins at home against animals as well provide them decent treatment as these living beings.

ANIMALIX AC believes that children are the future and the future are children, therefore we will not stop going to invite us as a forum to bring our voice and our word to speak these bearers of the future; because we like to believe that through our voice and our words they speak all that helpless, faithful unto death, ie, dogs and cats. Hence we organize, participate and we promote all kinds of activities that promote a better interspecies coexistence. So far this year we have participated in:

**6th Children's Cultural Fair.** We hold workshops with children at the invitation of the Cultural Center of Altos de Chiapas INAH (April 2018). We attended preschool and elementary school small. We teach about care of pets, and especially emphasize that they must have physical and emotional well-being, ie, must have food and water, a place to sleep, sheltered from sun and rain; They should go running, along with others of their species and humans; They should never attack or hurt.

**Hike "Protect the people you"** (August 2018), was a hike where we were as co and walkers. The participants were accompanied by their faithful four-legged friends. We achieve the objective pursued, making visible among the population that animals have rights. And they must respect their physical and emotional integrity.

**Discussion with high school students from La Salle College** (September 2018), school with which we have established an agreement to provide social service students.

"I do not care whether an animal can reason. I just know that is able to suffer and therefore I consider my neighbor" (Albert Schweitzer, Nobel Peace Prize, 1952).
Forum Citizen Participation Spaces (September 2018) organized by the elected council, there along with other individuals and groups, we advocate the inclusion in the agenda of public policies inclusive the issue of animal welfare in San Cristobal de Las Casas, whom or contained.

Perroton 2018 (September 2018) organized by the CECAM and which brought together hundreds of people with their four-legged friends. It was a morning of coexistence, there were walks, raffles, product sales, vaccination and deworming dogs and cats.

5. DONORS AND SPONSORS

We thank the people who helped us and donated money, goods, drugs, time and work, not to mention names not omit anyone; institutions, businesses and organizations: Foundation Zero Street, CECAM SCLC, Chuchos Inn, Chatus pet accessories, the MVZ Medical Veterinary Clinic. Salvador Zarte, MVZ. Marian Dondena, Plays Hits Radio 93.9 FM, Dental Clinic ORTHOCENTER Foundation Give me a paw, Bazar Powerpuff Girls, Cooperativa Visions, Wapani, Freewheel, Café Frontera, Kukulpan, Hotel Helvérica, Hotel Casa Mexicana, Travel Agency Let's Tour, Restaurant Camelot, Hotel Jardines del Carmen, Hotel Jardines del Cerrillo, Restaurant Italian Trattoria Catanzaro, bebop Club, Cultural Center Teaching, sterilizes San Cristobal; Love, enthusiasm and Work AC, GenerandoXMéxico, Hotel Kukurutz.

6. SOCIAL NETWORKS

AC Animalix manages a Facebook page with more than 14,500 followers where reports; It helps find lost animals; share tips; It promotes the adoption, sterilization and no abuse; In addition to requesting support, reporting and citizens receive reports. Every day we respond hundreds of messages and publications do. In these 10 months of 2018 we have grown by nearly 2200 followers.

"I do not care whether an animal can reason. I just know that is able to suffer and therefore I consider my neighbor" (Albert Schweitzer, Nobel Peace Prize, 1952).
