ABOUT US

Sri Arunodayam is a home for abandoned intellectually challenged children in India. It was founded in 2002 as a registered public charitable trust and was recognized as a Reception Unit by the State Government of Tamil Nadu, in 2008.

The Challenge

Extreme poverty, social stigma and a lack of awareness and access to resources prompt parents to abandon their intellectually challenged children.

These children are often abandoned in public places such as hospitals, bus and railway stations and even in dustbins! Child Welfare Committees, the Police and India's ChildLine services bring such children to Sri Arunodayam where they are nurtured, restored to health and rehabilitated.

Our Solution

Sri Arunodayam is one among very few homes that harbour abandoned intellectually challenged children. Most other homes act as day care centers which are funded by parents. We, on the other hand, assume total responsibility and provide life-long care by providing them with nutritious food, accommodation, medical aid, special education, physiotherapy and vocational training. We try to give them what they have lost – a home and a family.

Long-Term Impact

Sri Arunodayam has built its foundation on humanitarian values that uphold the dignity and rights of children. We offer abandoned intellectually challenged children the same opportunities that normal children receive, so that they may experience content and purposeful lives. Through our rehabilitation programs they become self-reliant and gain confidence to become productive citizens in society.

ABOUT THE CHILDREN

WE NURTURE

The children have endured rejection and unimaginable hardships. Some have even been abused. Most arrive in bad shape and need immediate medical aid. At our home they are treated, comforted, nurtured and loved. When ready to interact, we move them to the next phase of rehabilitation.

WE REHABILITATE

Rehabilitation work is ongoing. On recovery, physiotherapists, speech therapists and special educators begin to coach them and place them in Early Intervention, Pre-Primary and Primary, or Vocational programs. Through Prayatna - our vocational training unit, children above 18 years are provided training in vocational careers.

WE RESTORE

We believe that a family set-up is the best environment for a child. Therefore, we make every attempt to trace a child's family and try and reunite them. For parents who abandoned their children on account of poverty but are willing to be reunited, we provide counsel and help them get financial aid from the Government. Our legal department has helped reunite 82 children with their families.
