

Gopali Youth Welfare Society

Gopali Youth Welfare Society thank all its donors wholeheartedly who lent a hand to our mission of educated youth. Our project is to improve the infrastructure of our school Jagriti Vidya Mandir and make it fully-fledged with the required facilities and provide accommodation to more than 500 students. Currently, we have 4 classroom units having 8 classes from Nursery to V with over 250 students.

Benches Installation

As the increase in the number of children is observed every year, new benches were installed in the school to increase the capacity. A total of 31 benches were installed in all the classes.

Library Setup

A library has been set up with books of classes Nursery to V. We have bought a table and the bookshelves have been placed. This will help the students cultivate reading habits and grow interest in several fields.
