

Happier Homes in UK

Koach Parenting did a Global Giving fundraising campaign to raise money for supporting parents in raising their children in a happy and safe environment. We have begun using the money to help children with ASD and their parents; as well as parents with mental health issues, many of whom are low income families. We would like to express our appreciation to all our supporters who donated money towards this worthy cause. Below is some feedback that we have received from the families we have worked with using the money that was raised. For more information or to donate again, please visit our website at www.koachparenting.btck.co.uk

Average score for client being heard, understood and respected is currently **10/10**

and suggestions

Koach Parenting tip

The first step in helping your child with anger management is helping him to become aware that he is getting irritated, starting to become angry.
