*"Salud Visual, Alimento de Luz"*

*Thank you for your  
donation through*

# Thankfulness

*Thanks to your donation through GlobalGiving and the efforts of ACREC's operative and medical team, 20 patients were treated during the last three months, providing 65 ophthalmological consultations, diagnostic studies and preoperative protocol . Twenty cataract surgeries were performed on vulnerable patients deprived of their right to health. To date we can account for the success in surgical treatments so that in the medium and long term we will be able to account for the positive impact on these patients by changing their quality of life in relation to visual functioning.*

## Mr. Ernesto

*Mr. Ernesto lives in a community far from the city, the access to housing is difficult, the housing is borrowed from a single room, his bed is wooden boards with an old mattress, he has a bathroom without shower and a stove that does not use much because he does not have money to buy fuel. Buys his food for two days, and when he can't buy it, her neighbor gives her some food.*

*In April 2018, he was diagnosed with cataract, considered legally blind with a vision of 20/500 in the left eye and 20/150 in the right eye, which limits his daily activities, after several efforts, ACRFC and donations through GlobalGiving, in July Mr. Ernesto was operated and he has recovered his vision, thereby improving his quality of life in relation to visual functioning.*

A quien corresponda

Quiero dar gracias por el apoyo que me hicieron en mi cirugía ya que sin el no tendría manera de haberme operado y agradezco que estén apoyando a persona adultas mayores.

Gracias por su apoyo.

Ernesto

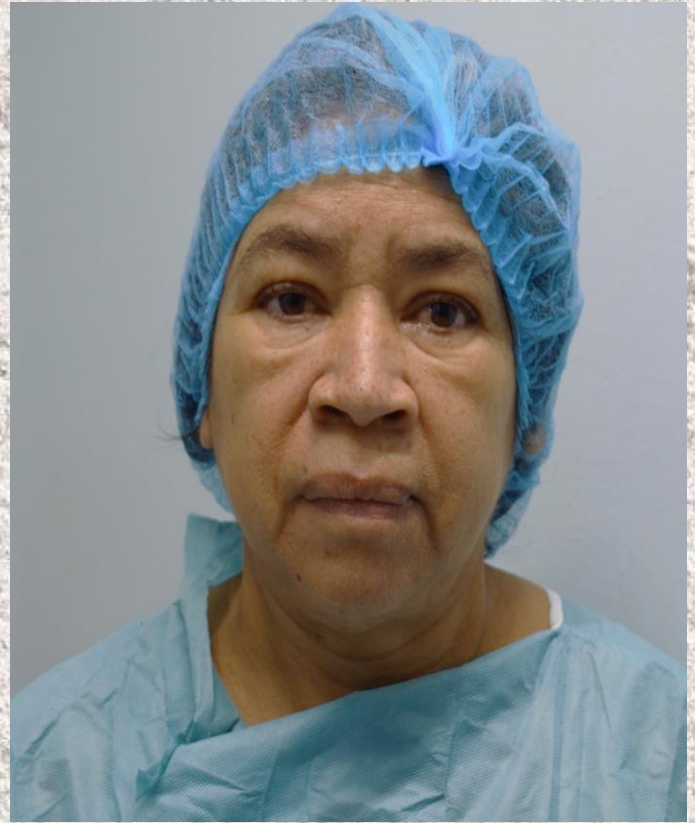

*To whom it may concern:*

*I want to give thanks for the support that I had my surgery, because without him I would not have had any way to have operated and I appreciate that they are supporting older adults.*

*Thank you for your support*
