"Salud Visual, Alimento de Luz"

Report for May through July 2026

Thank you
For *Changing*
a life

It is a pleasure to reach out to you to express our most sincere gratitude for your generous support and for the trust you have placed in ACREC's mission. Your solidarity inspires us to continue transforming lives and providing opportunities to people facing vision problems that affect their well-being, independence, and development.

Thanks to the contributions made through the GlobalGiving platform, from May through June we were able to perform 41 eye surgeries, offering an equal number of people the opportunity to regain their vision and significantly improve their quality of life. Each surgery represents the chance to return to school, work, care for their families, get around more safely, and resume activities that were previously difficult or impossible.

Your donation provides an opportunity for people in vulnerable situations to access specialized eye care that would otherwise be out of their reach. Behind every positive outcome lies a story of hope, shared effort, and confidence that a better future is possible.

At ACREC, we remain firmly committed to managing every resource with responsibility, transparency, and efficiency, ensuring that every contribution has the greatest possible impact on the lives of those who need it most. Your support strengthens our daily work and allows us to move toward a future in which preventable visual impairment is no longer a barrier to personal development.

We hope to continue counting on your valuable support to keep bringing eye care to those who need it most. Together, we make it possible for more people to regain not only their vision but also the opportunity to live with greater independence, confidence, and quality of life.

On behalf of all the beneficiaries and everyone at ACREC, thank you for believing in our work and for making these 41 surgeries possible—surgeries that today represent new opportunities for many people and their families. Your generosity leaves a deep and lasting impact, and for that, we express our most sincere appreciation and gratitude.

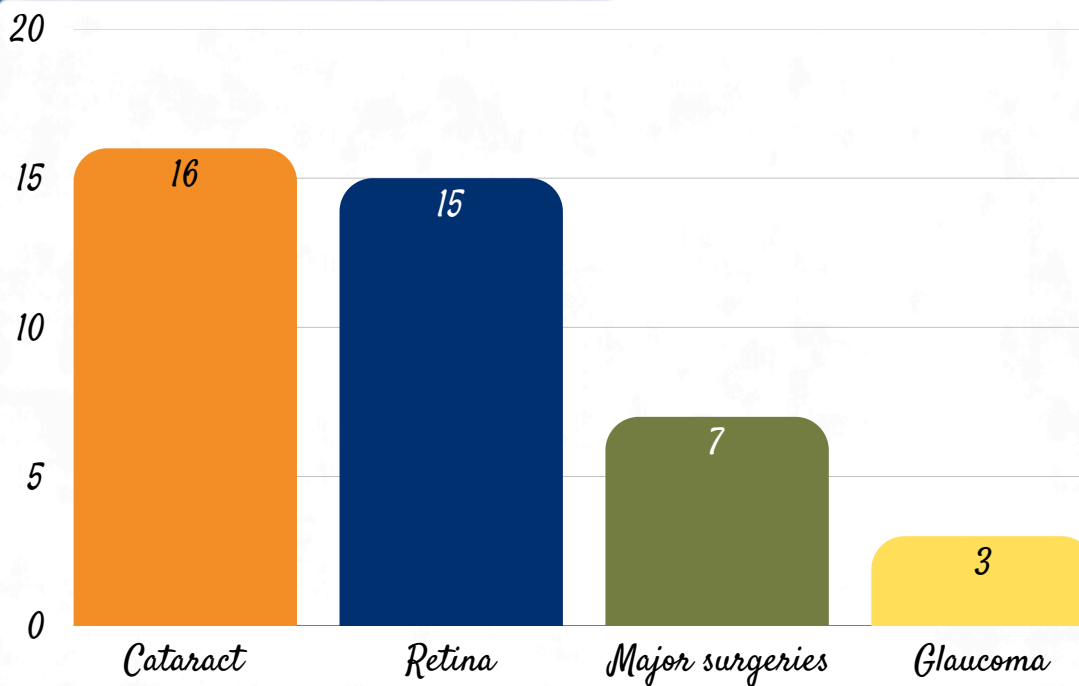

With warmth and gratitude,

The ACREC Team

Dear GlobalGiving donors:

In addition to greeting you, I want to thank you from the bottom of my heart for your support.

Due to my medical condition—specifically, cataracts—I came to this clinic, where, in addition to being diagnosed with cataracts, I was also diagnosed with pseudoexfoliation syndrome.

As an elderly person, and due to my medical condition, I am unable to work. However, my family is currently coming together to help me cover the costs of the surgery so that I can undergo the procedure and regain my vision, allowing me to continue carrying out my daily activities as best as possible.

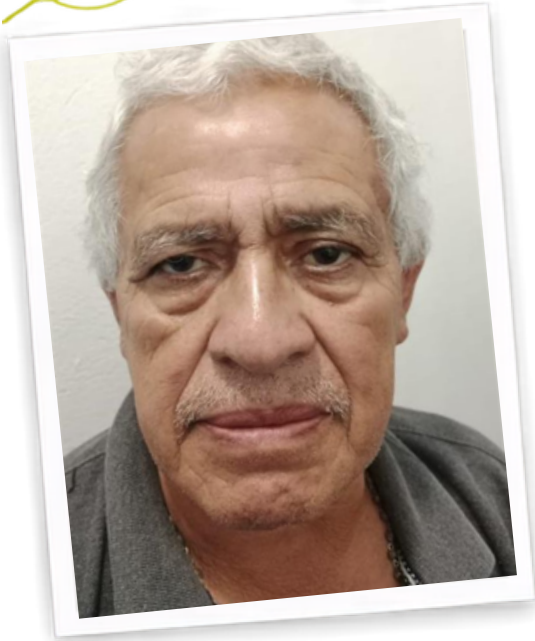

I am infinitely grateful for your support and generosity. I value it immensely, as without this support it would have been very difficult—if not impossible—for me to have the surgery at this time.

Thank you very much! God bless you.

Mrs. Cristina

Ninfa

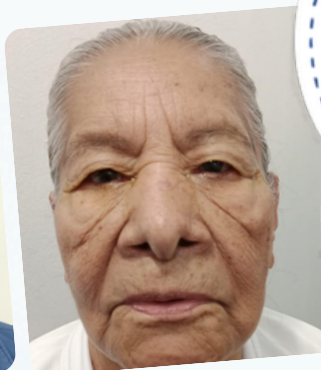

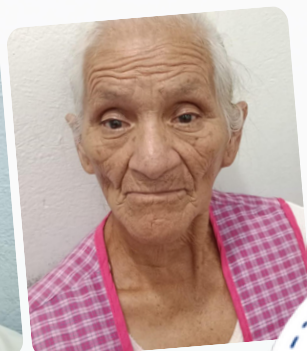

My name is Ninfa. I want to thank GLOBAL GIVING for the support provided to help me undergo cataract surgery and improve my vision, since I was having trouble performing my daily activities because I couldn't see well, and that was preventing me from leading a normal life.
