"Salud Visual, Alimento de Luz"

Reporte Julio- Septiembre 2021

During this period we helped 8 elderly people to undergo surgery.

In the locality we have serious economic problems, many of these problems are due to the lack of jobs and other situations derived from the global pandemic that we are still living.

We ask our GlobalGiving donors to continue their support, many people are still waiting for your help to be operated, no matter the amount, any amount adds up, together we will make it possible for more seniors to live the last stage of their lives with dignity and with a better.

Thank you for joining the cause, our grandparents need you.

Mrs. Graciela

Mrs. Graciela, 65 years old, from Yautepec, Morelos, lives with her 78 year old sister, they both help each other, they never married and have no children, they only have a relative who occasionally supports them with food.

Mrs. Graciela is asthmatic and suffers from some age-related ailments. At the beginning of this year, Mrs. Graciela's vision was very affected, when she went to the ACREC Clinic she was diagnosed with senile cataract in both eyes, for that reason Mrs. Graciela underwent surgery in July.

Currently Mrs. Graciela has substantially improved her visual quality which allows her to perform her daily activities with greater security.

Mrs. Graciela is grateful to the donors who take the courtesy to help other people even without knowing them.
