## *Mr. Edmundo*

Mr. Edmundo is 70 years old and lives in the town of Tehuilotepec, in the state of Taxco de Alarcón, Guerrero. His home has adobe walls and a tin roof, no access to drinking water or drainage, and he shares his home with his son, daughter-in-law and two grandchildren.

He lacks access to health services; this has complicated his chronic disease (bone cancer) and his visual health.

On October 5, 2019, he was diagnosed with senile cataract in his left eye. He had a vision of 20/200, which complicated his daily activities.

After several efforts, and thanks to donations from GlobalGiving and ACREC, Mr. Edmundo was operated. His left eye vision improved to 20/80. Now his quality of life has increased in relation to visual functioning.
