

REPORT

JANUARY- FEBRUARY

2025

It is an honor to write to you to express our sincere appreciation for your valuable support during the months of January and February. Your confidence in our work encourages us to continue transforming lives and providing hope to those who face great challenges.

Thanks to your generosity through the GlobalGiving platform, we have been able to benefit 43 senior citizens with eye surgeries at the beginning of this year.

For us, your contribution is an act of solidarity that motivates us to expand our reach and strengthen our actions. Seeing the tangible impact of your support fills us with inspiration.

We are proud to manage every resource with responsibility and transparency, ensuring that each donation generates the greatest possible impact. Your support is not just a number; it is the light that guides the way to a more just future full of opportunity.

We invite you to continue to be part of this transformative mission. Together, we can build a world where no one's life is limited by a preventable visual impairment. Thank you for trusting in our work and for being a fundamental pillar of this project. Your help has left an indelible mark on many lives, and for that, we are deeply grateful.

With affection and gratitude,

ACREC

The Care Our Seniors Deserve

Older adults are an essential pillar of our community, with knowledge and experiences that enrich our environment. However, as they reach this stage, they may face health problems that affect their well-being and autonomy.

Attending to their needs involves not only providing medical care, but also recognizing their value and guaranteeing them a dignified and respectful environment.

Strengthening your family and community ties is key to healthy and fulfilling aging.

Visual health is a fundamental aspect that influences their quality of life. Good vision allows them to enjoy their daily activities with safety and confidence. Ensuring this care not only improves their physical well-being, but also their self-esteem and independence.

Caring for our elders is a commitment to those who built the present. To promote their well-being is to move towards a more just, humane and caring society for all.
