*"Salud Visual, Alimento de Luz"*

## Dear Donor:

On behalf of our entire team, we would like to extend a warm and sincere thank you for your generous contribution. Your support is, without a doubt, a driving force behind our work and allows us to continue making a difference in the lives of those who need it most.

Thanks to your donation through the GlobalGiving platform, in this second quarter we have been able to perform 68 eye surgeries. These interventions have changed the lives of our beneficiaries, allowing them to recover their vision and with it, the opportunity to live fully and rediscover their dreams and daily activities.

Each procedure we have performed tells a story of renewed hope, a story in which your contribution has played a crucial role. The smiles of gratitude and words of appreciation from our patients remind us daily of the value and depth of your donation.

Your generosity is not just a number, it is an act of kindness that inspires our entire community. With your support, we are creating a positive and lasting impact on the lives of people facing major visual challenges.

We want to assure you that every resource is handled with the utmost transparency and dedication, focusing on making your investment go as far as possible. Your trust in us is our engine to keep improving and expanding our reach.

Thank you for joining us in this mission and for sharing the belief that, together, we can build a more inclusive world full of possibilities. Your generosity has made a real difference, and for that, we are deeply grateful.

**With sincere appreciation**  
**ACREC**

## **The Importance of Care for the Elderly**

Older adults represent an essential part of our society; they are bearers of experiences and knowledge that enrich each generation. However, as they reach this stage of life, they face health challenges that, without proper care and support, can affect their quality of life and their ability to remain independent.

Caring for older adults is not only about meeting medical needs, but also about valuing their dignity and contribution to our society. It is essential to provide them with access to specialized care that respects their rights and preserves their well-being, allowing them to age in a respectful and supportive environment. In this way, we contribute to their full integration into the community and strengthen their family and social ties, key factors for healthy aging.

Visual health, for example, is an often underestimated need that profoundly affects the autonomy of older adults. Maintaining good vision is fundamental to their daily lives, so they can enjoy activities, recognize their loved ones and move around safely. By providing proper care, we are not only improving their physical well-being, but also their self-esteem and participation in society.

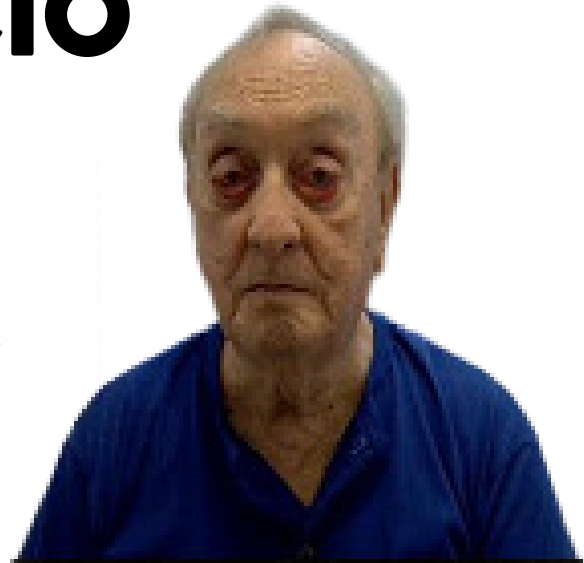

Caring for older adults is ultimately a sign of sensitivity to those who have gone before us. Recognizing the importance of this care means building a more inclusive society, where each person can live each stage of their lives to the fullest. By understanding their needs, we are forging a more just, respectful and humane community for all.

# JORGE PATRICIO

Por este medio agradezco a Global Giving-AI por la oportunidad que me brindan para poder operarme de mis ojos.

les agradezco infinitamente el apoyo que me están dando para poder volver a ver bien, ya que por mi problema en los ojos no podía tenerlos limpios ya que siempre tenía infecciones

Gracias por apoyar a tantas personas.

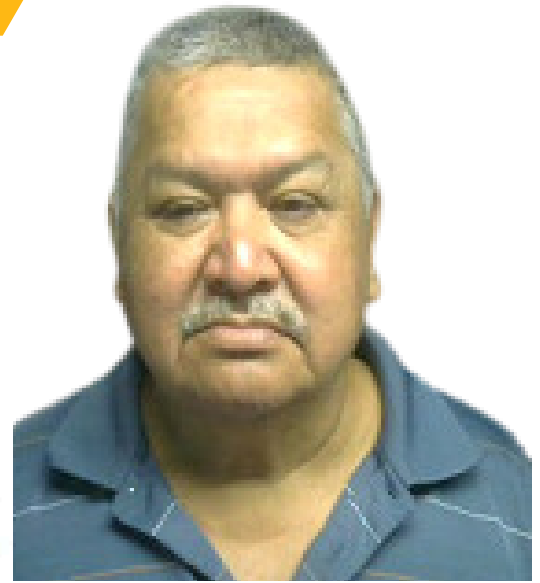

I would like to thank Global Giving for the opportunity they are giving me to have surgery on my eyes.

I am infinitely grateful for the support you are giving me to be able to see well again, because of my eye problem I could not keep my eyes clean because I always had infections.

Thank you for supporting so many people.

# JORGE
