"Salud Visual, Alimento de Luz"

Report

April-Jun 2023

GlobalGiving

It has been a quarter full of satisfaction for the work done. In this period with the donations through the GlobalGiving platform, we benefited 20 people who needed eye surgery to save their vision, 11 women and 9 men. The youngest person is 60 years old and the oldest is 80 years old; the average age of the people operated on is 68 years old. According to the words of the beneficiaries, this surgery considerably improves their visual functioning, which gives them more security when doing their daily life activities, gives them autonomy and makes them feel more secure. We would like to personally tell each and every one of our donors THANK YOU, without your help this would not be possible. We continue to put our work in your hands to support more seniors in need of surgery.

Thank you
