## 2022 Second Report

*The second quarter of this year has finally been a "normal" period, we continue working with much enthusiasm to benefit the elderly who require cataract surgery. As a result of the pandemic different situations become more evident; definitely the lack of jobs has had an important impact on the economy of Morelos families, isolation was not favorable for people suffering from chronic diseases, that is why in ACRCE we redouble our efforts and implement strategies to help more people who require surgery to improve their vision.*

*Thank you*

*"Thank you for your immense kindness that accompanies us and gives us strength to continue helping"*
