Mrs. Margarita

Woman

71 years old

Margarita, who is originally from Izucar de Matamoros Puebla, Mexico, is a strong and special woman, despite her advanced age and low income, she has been supporting and caring for her grandson for 6 years.

Unfortunately, she was diagnosed with retinal detachment in her right eye, a condition that only allows her to perceive the movements of her hand. Retinal detachment is a complex condition that requires emergency surgery to stop the continuing loss of sight.

Thanks to donations from GlobalGiving and ACREC, Margarita was able to have surgery. Now, Margarita has resumed her activities with her renewed vision.

Mrs. Agripina

01 Jul 2020

I thank them for the moral and financial support they give me to have my eyes operated on. As you know, sight is an important part of us, without sight, it is difficult to continue with our activities.

A thousand thanks to the doctor and to everyone. God bless you.
