GlobalGiving RECEADIT Drug Assistance for Internally Displaced People (39386) Project

Sixteenth Project Report Tuesday, February. 27, 2024

By Dr. Jilly M. Ngwainmbi - Project Leader

On behalf of our RECEADIT Humanitarian Team, I take this opportunity to thank you so, so very much for your generosity and willingness to join us and to partnership with us on our journey of serving humanity through the Guidance, the Blessings, the Love, and the Grace of God Almighty.

We are glad to provide you with the following progress report and updates for our “Drug Assistance for Internally Displaced People Project (39386)” thanks to your generosity:

As we reported in our Fifteenth Project Report of Wednesday, October 18th, 2023, we must still point out and emphasize with a lot of regret and frustration that because of the threat posed by Covid -19 and especially the intensification of the war and the extended lock down periods from May 20th,2023 up to September 18th, 2023 in the English speaking part of Cameroon where our RECEADIT Clinics at Kitchu, Mbam, Muteff, and Ngemsibo remote rural communities are located, RECEADIT has turned its attention to and its focus on drugs/medication for the Internally Displaced People. This explains why most of the Illustration Photos are about drugs/medication, drug/medication transportation and distribution to Our five Clinics (See First and Second Illustration Photos);

2) Again, this our Sixteenth Project Report still focuses on our renewed, continued concern for and the horrible and deplorable living conditions of some of the Internally Displaced People within the Kitchu, Mbam, Muteff, and Ngemsibo remote, rural communities where our RECEADIT Clinics are located. These horrible and deplorable living conditions have resulted in our increased Vaccination, food assistance and our reopening of Our RECEADIT Clinic at Bassamba (Third and Fourth Illustration Photos);

3) We continue to face a major challenge posed by the deplorable conditions of some of our internally displaced People. We are glad and very proud of our RECEADIT Medical workers who continue to do an excellent job by increasing and intensifying their Home Visits and their vaccination of children and providing food to our Internally Displaced People (See Fifth, Sixth, Seventh, Eighth, Ninth, Tenth and Eleventh Illustration Photos); and

4) With the difficult and challenging conditions of our Internally Displaced People, especially in the remote, rural communities (See Twelfth Illustration Photo) where our RECEADIT-GlobalGiving Partnership Community Health Centers are located, we have decided to build new structures, designed specifically for: a) The provision of lodging and accommodation for our Internally Displaced People and our medical workers; and b) Our Clinic Canteen/Food Store, designed to provide our medical workers and our Internally Displaced People food and other needed items (See Twelfth, Thirteenth and Fourteenth Illustration Photos);

We will continue to provide you with monthly reports and updates of our other projects, activities, accomplishments, and challenges.

We hope that you will continue with us on this our journey of serving humanity through the Guidance, the Blessings, the Love and the Grace of God Almighty, a journey which has now taken us to this our “Drug Assistance for Internally Displaced People (39386)” through our new link: <https://goto.gg/39386>
