GlobalGiving RECEADIT Drug Assistance for Internally Displaced People (39386) Project

Twentieth Project Report Thursday, June 12, 2025

By Dr. Jilly M. Ngwainmbi - Project Leader

On behalf of our RECEADIT Humanitarian Team, I take this opportunity to thank you so, so very much for your generosity and willingness to join us and to partnership with us on our journey of serving humanity through the Guidance, the Blessings, the Love, and the Grace of God Almighty.

We are glad to provide you with the following progress report and updates for Our “Drug Assistance for Internally Displaced People Project (39386)” thanks to your generosity:

- 1) As we reported in our Project Report of Friday, February 14, 2025, we must still point out and emphasize with a lot of regret and frustration that because of the threat posed by Covid 19, malaria and especially the intensification of the war and the extended lock down periods from August 27th, 2024 up to October 14th, 2024 and continuing into 2025 in the English speaking part of Cameroon where most of our RECEADIT Clinics at Kitchu, Mbam, Muteff, and Ngemsibo remote, rural communities are located, RECEADIT has turned its attention to and its focus on drugs/medication for the Internally Displaced People. This explains why most of the Illustration Photos are about drugs/medication, drug/medication transportation and distribution to Our five Clinics (See First, Second, Third, Fourth and Fifth Illustration Photos);
- 2) Again, this our Twentieth Project Report still focuses on our regrettable, renewed and continued concern for and the horrible and deplorable living conditions of some of Our Internally Displaced People within the Bassamba, Kitchu, Mbam, Muteff, and Ngemsibo remote, rural communities where our RECEADIT Clinics are located. These horrible and deplorable living conditions have unsurprisingly resulted in our increased Vaccination, Home Visits, food assistance and our reopening of Our RECEADIT Clinic at Bassamba (See Sixth through Fourteenth Illustration Photos);
- 3) We continue to face a major challenge posed by the deplorable conditions of some of our Internally Displaced People. We are glad and very proud of our RECEADIT Medical workers who continue to do an excellent job by increasing and intensifying their vaccination of children and providing food to our Internally Displaced People (See Twelfth through Sixteenth Illustration Photos); (See Sixth through Fourteenth Illustration Photos); and
- 4) As we reported in our Nineteenth Project Report of Friday, February 14, 2025, with the difficult and challenging conditions of Our Internally Displaced People, again we have deliberately decided to continue with the excellent idea of increasing Home Visits, designed specifically for: a) The provision of medical assistance and discovering of those who need accommodation and providing it; b) The discovery of those who need Food assistance and other needed items and providing them; and c) providing medical care for new born babies (See Sixth through Fourteenth Illustration Photos) and d) providing Health Care and Computer Training and Documentation Services (See the Fifteenth Illustration Photo).

We will continue to provide you with monthly reports and updates of our other projects, activities, accomplishments, and challenges.

We hope that you will continue with us on this our journey of serving humanity through the Guidance, the Blessings, the Love and the Grace of God Almighty, a journey which has now taken us to this our “Drug Assistance for Internally Displaced People (39386)” through our new link: <https://goto.gg/39386>
