

ACTIVITIES REPORT FOR THREE LAST YEARS:

Education and English for You, (EEFY), is a nonprofit organization that fosters the Childhood and Adult Education, Gender Equity and English language under the volunteering work! It also provides support to the needy people in the social and education issues despite the lack of real sponsor!

Therefore, the following lines describe its activities from the last three years!

In 2015, thanks to the support of U.S through its Embassy, it received a Grant of \$10,000.00 that permitted the rehabilitation of the toilets of six public schools in Bingerville, suburbs of Abidjan, the economical capital. This allowed more than 8000 students from two secondary and four primary schools to learn in the hygienic conditions because the toilets in the school didn't work so students couldn't have access! The project took three years!

In addition, it created a social volunteering school that permitted 300 kids coming from poor families to learn the basic education based on reading, writing, calculation and English learning! So the kids received many donations thanks to the support of the International Community School of Abidjan (school bags, clothes, books, pens, crayons, pencils, rulers, copy-books...), Didier Drogba Foundation, (50 school bags). All gifts relieved many families! It was in 2016, the year of the support received!

Moreover, thanks to the support of the U.S Embassy, it gives the privilege and opportunity to the kids of our community to partake the children Programs at U.S Embassy like: Storytelling, Grain de Leaders! The impact of the action deals with the promotion of leadership skills among our kids since 2015 and up today!

Since 2016, Education and English for You, is initiating the English language at public primary school where the majority of the students are from poor families! It is also a privilege to give the same chance of learning to the poor kids because those who start learning English, generally attend the private schools which is a bit expensive!

In the same year, 2016, thanks to the support of LitWorld and Global G.L.O.W, Organizations in U.S, we are making the promotion of literature and gender equity because

we have 60 girls aged from 09 to 19 year who take a free Leadership Course based on reading once per week!

In addition, thanks to the support Know My World, an Organization in U.S, through Scholarships online, we connected the kids of our community and those of abroad like the Holy Angel School in Toronto, Canada, Deauville Gardens West Elementary School Copiague, New York, USA, Programa Multicultural Technologic de Monterrey, Campus Guadalajara in Mexico, School of Solone No.1, Dnipro, in Ukraine, where kids of our country and community learnt with those of above based on Digital Intercultural Learning!

It provided three desktop in 2017 to the local public primary school called Anono to permit the kids to the initiation of computer science at school. We have at least 150 students who partook this project.

In 2018, thanks to the support of the International University of Grand-Bassam (American University), it provided 16 benches to the local public primary school to permit the kids to work in the good conditions.

It also provided assistance to the population of its community through school kits, clothes, foods, computer, thanks to the support of GlobalGiving.
