

## Donating to Blind Faith

<http://bit.ly/bfchgodonate>

As with any nonprofit organization, we depend on the donations of people like you to help our programming work. *Blind Faith's* education goals are to provide quality, factual information to the community that will assist in ending stigma, educating families and providing resources that continue to allow families to understand that no one is alone.

We ask that you continue to consider making a donation to Blind Faith. Your donations help us continue to reach our goals. *EDUCATION and ADVOCACY.*

Imagine a  
world where  
no one walks  
their journey  
alone

*Mission Statement:* To advocate for, educate and inspire those who are affected and effected by mental illness in communities of color.

*Vision Statement:* A world where no one walks this journey alone.

*“There is no health without mental health; mental health is too important to be left to the professionals alone, and mental health is everyone’s business.”*

*~ Vikram Patel*

**Blind Faith** . . . A name chosen to symbolize that even when we can’t clearly see the path ahead, we must still take that first step in our journey to recovery.

We are a nonprofit organization whose sole purpose is to help ALL communities of color by eliminating stigma, learning “person first” language, becoming well educated in mental health for self and family, advocating for mental health for all and inspiring families and those living with mental illnesses.

### **Blind Faith’s Services:**

- **Advocate:** speak to elected officials about the importance of maintaining valuable funding in budget line items.
- **Direct Support:** Sit with families and/or consumers as they begin the mental health journey (hospitalizations or doctor’s visits).
- **Educate:** Workshops on different topics throughout the year to help educate the general public, families and consumers.
- **Inspire:** Provide hope and inspiration to families through individual conversation, family meetings and public speaking.
- **Outreach:** Assist churches in setting up their mental health ministries and programs.
- **Additional Services:** Individualized services provided, as needed. Contact **Blind Faith** to discuss.

## Our Founder

**Tiffany Brown Walker** has been an impassioned mental health advocate for many years. As a person who lives with a mental illness, Tiffany has worked hard to help people understand 'person first language' and reduce the stigma associated with mental illness. Her goal is for anyone affected or effected by mental illness to know that they are not alone.
