

Roads to Rehab
Nepal

Many people living in remote regions of Nepal do not have access to primary healthcare, medical treatment, physiotherapy or rehabilitation services. Medical care is not free in Nepal and poverty is widespread.

Roads to Rehab Nepal is a non-profit organisation registered with the Australian Charities & Not-for-profits Commission (ACNC). We work in partnership with an organisation in Kathmandu called NHEDF (Nepal Healthcare Equipment Development Foundation). NHEDF was established in 2015 following the earthquake and we partnered with them in December 2016.

Our mission Many people in Nepal do not have access to medical care and rehabilitation services. Poverty is widespread. Like the World Health Organisation, we believe free health and medical care should be a universal human right.

What do we do? Together with our project partner, NHEDF, we improve health outcomes by funding and facilitating access to medical and surgical intervention, nursing care, physiotherapy and rehabilitation services for people who experience life changing

illness or injury but cannot access these services due to poverty.

How do we do it? We rely solely on donations. We pay the wages of NHEDF's three nurses and a physiotherapist. We fund as much as we can of NHEDF's pharmacy bill which includes not only essential medications, but all medical, nursing, physiotherapy and occupational therapy equipment and supplies needed for patients at NHEDF's Shelter. We also cover the cost of surgery, medical and hospital expenses when required. We change the lives of people in Nepal who experience life changing illness or injury and have no one else to turn to and nowhere else to go.

HOW YOU CAN HELP You can help us change the lives of people who have no one else to turn to and nowhere else to go by making a donation; supporting our fundraising efforts; contributing to the wages of a nurse or physiotherapist; sharing your skills; the possibilities are endless!

With grateful thanks,

Virginia Dixon
