

Many thanks to the Global Giving community!

Irma can walk again thanks to your outstanding support which makes our program possible.

Irma is from Zaragoza, small town in Antioquia, one of the places most affected by landmines in Colombia. When she was 10 years old, she stepped on a landmine and lost her left leg, while she was collecting sticks with her father in the field. Now, she has an 8-year-old daughter and lives with her family.

On behalf of our beneficiaries, thank you so much for your invaluable support!
