50 more reasons to keep going with our commitment on restoring lives!!!

On 2019 thanks to your solidarity many dreams came true: 50 landmine survivors received prosthetic solutions, 150 disabled athletes participated in 6 different running races and 16 military doctors received advanced medical training at the Mayo Clinic in the USA.

It is our commitment to keep supporting Colombia's armed conflict victims in their way to restore their dignity and quality of life.

"Thanks for helping me during the most difficult time of my life. You improved my face, my body and my quality of life. I will never forget you and I will always carry you in my heart."

"Thank you for filling my life with hope and giving me the opportunity to walk again. New dreams have helped me forget those days..."

"My moral wounds of war have healed. United for Colombia helped restore my faith in life. My gratitude is forever yours."

"My war wounds are the tattoos of my life story."

"Cycling is more than a passion; it gave me a purpose in life. Thank you for helping me achieve my dream."
