

“Help Children in Need”

April 2020

Thanks to your support,
we continue to provide
holistic education to
vulnerable girls and boys!

Muchas gracias!

We work hard to provide solid values to our girls and boys so that they can build their own foundations for a better future

Due to the COVID-19 pandemic, and following guidance of government health authorities, we temporarily suspended our work on March 20, 2020. It is in times like this when our services are most needed!

We know that the situations of vulnerable families are dire, and we have started to help them in non-traditional ways. We have been providing them food and meals-to-go three times per week, and have been offering them support over the phone from a community they already know and trust.

We look forward to re-start offering our services soon. We ask for your support so we can continue helping the many single mothers that count on us caring for their children. It enables them to build a better future for their families and a better society for all of us.
