

PBBB activities held between January, February and March 2023

January – school vacation period – only articulation with the municipal education departments for joining the PBBB. – contact with 26 municipalities

February-

- 1) continuity of articulation between municipalities.
- 2) Articulation of processes for the arrival of 8 thousand LEGO Braille Bricks kits in Brazil to be distributed free of charge to around 73 municipalities in the Brazilian states. Brazil has already reached, in 2022 alone, 50,220 students with and without visual impairment. (More information in Dona Ika's report)
- 3) Internal organization for holding the 1st LEGO Braille Bricks Meeting. International meeting in face-to-face and online format that will take place in May 2023, in São Paulo, with the participation of teachers, managers and students involved in the Braille Bricks Program, as well as the partners directly and indirectly involved in the Program.

March

- 1) Continuity for organizing the event in May/23
- 2) Continuity of the processes for releasing kits at customs and those at INMETRO
