Subject: Report - Donation to Affected Community Tropical Cyclone Belna

Key Activities		Indicators of Achievements	Means of Verification	Assumptions
Phase 1. Situation Overview				
Phase 1. Situation Overview	A01. Phone Call and Email from Global Giving	10 January 2020	<p>“The GlobalGiving Team was very sorry to hear about the recent Tropical Cyclone Belna Across Western Madagascar that occurred in December 2019. We are contacting you because through a partnership with Facebook, we received modest funds to help the affected community. Because your organization is a valued GlobalGiving partner, we are reaching out about potentially directing the funds to your organization”</p>	Our initial reaction was initially to direct the donations to Madagascar Red Cross
	A02. Desk Research and Preparatory Meeting . Compilation of information . Exchange of phone calls between representatives of Halt Poverty and BNGRC known as the Government’s National Disaster and Risk Management Office	12 -24 January 2020	<p>“A weather system that formed in the Mozambique Channel on 17 January 2020 hit the north-west of Madagascar on 22 January, causing widespread rains and floods. At least 106,846 people have been affected in seven regions, with Boeny, Sofia and Alaotra Mangoro regions the worst-hit, according to the Government’s National Disaster and Risk Management Office (BNGRC). The flooding has displaced over 16,000 people and left at least 31 dead, according to BNGRC”</p> <p>“Destruction and damage of key infrastructure—including roads, houses and schools—has been reported in multiple locations. More than 10,600 houses are still flooded and 146 have been destroyed. Across the seven regions, around 6,600 students are out of school due to damage (85 damaged classrooms) or the use the schools as temporary displacement sites (18 schools to date). Areas of the national roads 4 and 6, which connect north-western Madagascar to the rest of the country, have been washed away by the floods”</p>	The government declared a State of Emergency on 24 January and activated the humanitarian response, led by the National Committee for Disaster Risk Reduction (DRR) The BNGRC has called for the mobilization of stocks to meet the immediate needs of those affected, and the Humanitarian Country Team
Phase 2. Field Work				
Phase 2. Field Work	A03. Disbursements from Global Giving	28 January 2020 Received donations from Global Giving to support the affected community in US Dollar: \$250 in Ariary: 912.000Ariary Ref: 000A00166136	<p>“The National Bureau of Disaster Risk Management (BNGRC) warned that flooding in lowland and rice-growing areas also posed a risk of "food insecurity and malnutrition". A disruption in the supply of basic goods could also lead to a surge in prices, BNGRC added. The bad weather has displaced nearly 107,000 people, with Prime Minister Christian Ntsay declaring the situation a "national disaster". "The government is calling on national figures and international partners to help the Malagasy people with emergency aid, early recovery, rehabilitation and reconstruction"</p>
