

# MEDICAL FACE INTERNATIONAL

*Saving more lives together...*

Identifying need in communities and standing in the gap to be part of the solution.

**Partner or come with us and share the true experience of Africa's community health!!!**

Giving children an opportunity to play their full role in health promotion through research and debates

MFI is a Non Governmental Organisation

**Who we are;**

We are an expanding union of health professionals who design and develop projects through which essential health care is delivered to the vanerable people.

**What we do;**

- We offer free specialised health care services like major and minor surgeries, Dental, Eye sergergy and more to the needy communities
- We Promote preventive health care through giving free body check up like cancer screening, Nutrition assessment, HIV, Hepatitis B and vaccination etc.
- We start up health clubs in institutions from primary & secondary schools, universities, colleges and in local communities that induce behavioral changes towards preventive health care.
- We deploy health professionals to support other organisations like Rotary, Buganda Gov't, WHO and communities as they carry out thier health out reaches or camps.
- We conduct massive Health check ups and health assessment for company employees, schools and universities with immunisation of preventable diseases.

**How to work with us or how we can serve you;**

- 💡 You can support us from as low as 10,000/= per month
- 💡 Inviting us to your company, community or school for health promoting like general body check ups.

*You too can be a reason for one to smile....*
