Education Sector

In the education sector, we have set up projects and aim to set up more to provide education to children who wish to study but their families cannot afford to send them to schools.

Our Plan

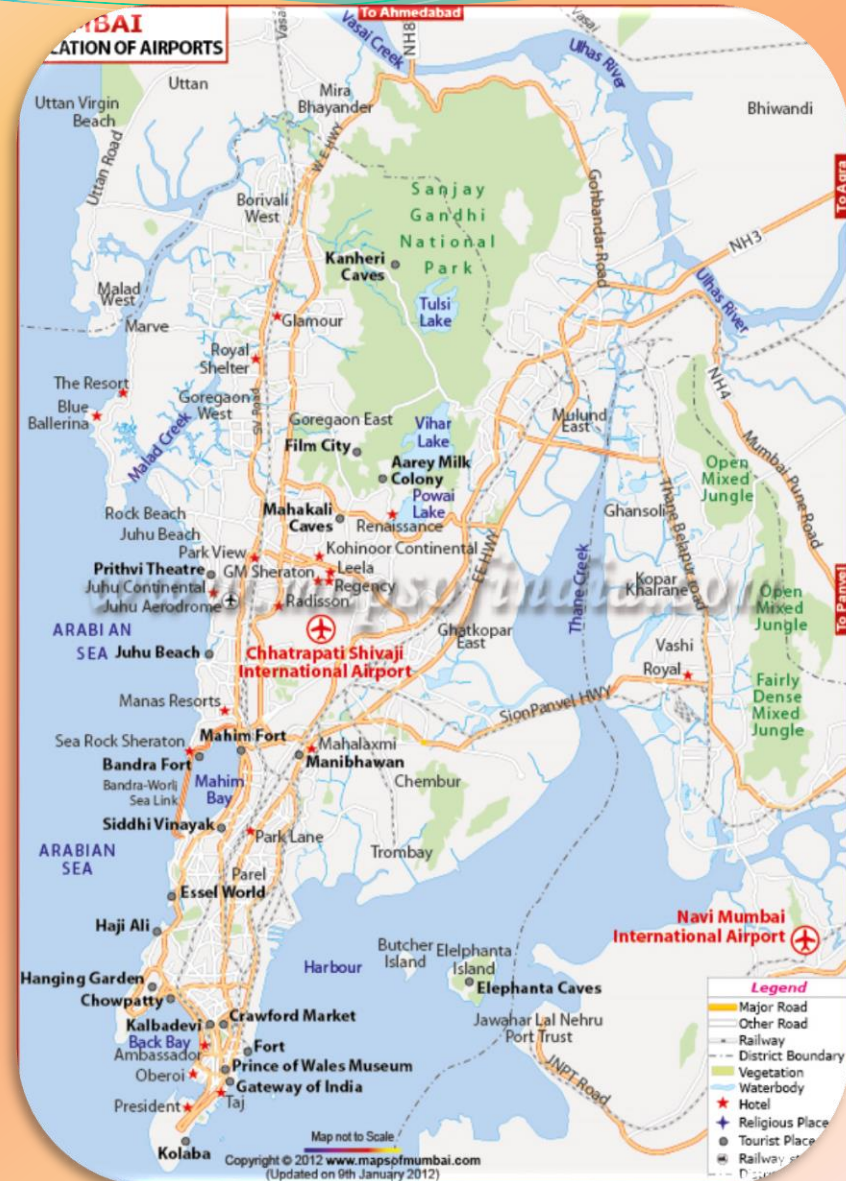

❖ *There are many children who have lost their parents due to some unavoidable tragedies.*

❖ *Some are left by their parents. Many belonging to this category are girls and have to suffer just because they are the weaker sex.*

❖ *There are kids who belong to poor labor families and do not go to school in backward urban areas like Virar East and Gurgaon.*

- *We will contact the families of the needy children.*

Our Mission

❖ We will try to set up Non Formal Education Center(NFEC) in the respective areas.

❖ We will register them in our centers .

❖ After the completion of their elementary education, once when the child will grow up and their parents would have had a habit of sending their children to our education centers, we will approach their parents convincing them to enroll their child's name in a nearby school for higher education.

❖ *We will be helping the children and their families with the entire process of admission and documentation.*

❖ *We will also contact the nearby schools to provide the kids with education free of cost.*

❖ *We will pay the fees of the enrolled kids and also provide them with stationeries, uniform etc.*

❖ *DGF will ensure the NO or Minimum drop out of kids from our centers and then the schools.*

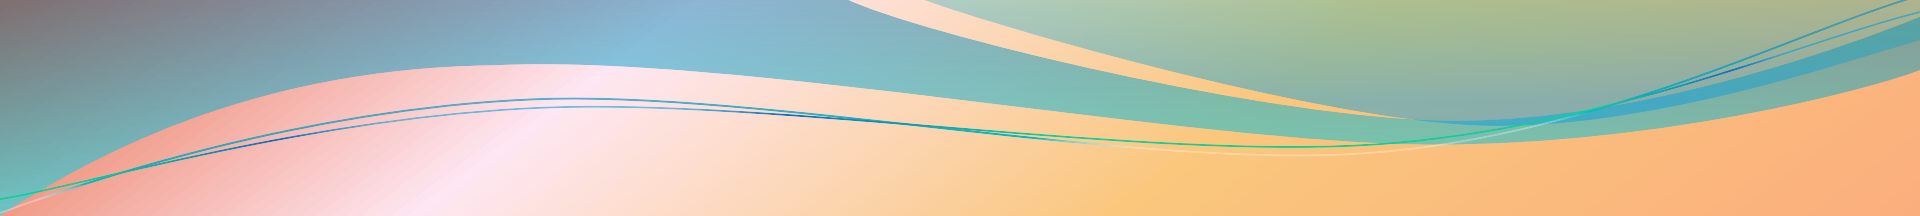

❖ *DGF will set up awareness camps to make the society aware about the importance of education.*

❖ *DGF will also ensure the quality of education being provided to the children.*

❖ *DGF will help create a healthy environment for the children to study.*

❖ *DGF shall provide refreshments to ensure maximum presentment of kids.*

***Our two Non Formal Education Centers
have been running successfully in
Gurgaon and Virar East. It has helped
hundreds of kids to get quality
education which let them develop in the
society like any other mate of theirs.***

Case Study- Non Formal Education Center in Gurgaon

We have established a Non Formal Education Center in Surya Vihar, Gurgaon which is a backward and unauthorized area in Haryana. Many labor class families reside here. The families over here live a harsh and tough life working for the whole day to just earn their families two square meals a day. They have to work hard for their survival. The locality, being an unauthorized one, had no school nearby where they could have sent their children to study. Many did not even will to spend their earnings on their children as they thought it to be a waste of money. So the children had no option but to stay at home or work against their wish. This would have created another generation with illiteracy.

To terminate this chain and help the children, we conducted a survey indentifying the kids who did not go to school. Following this we talked to their parents convincing them to send their children to school. We, at our centers, provided the children with elementary education after the completion of which we registered them in a recognized institution. Our efforts helped the children to come to the main stream and live a life full of opportunities like any other child.

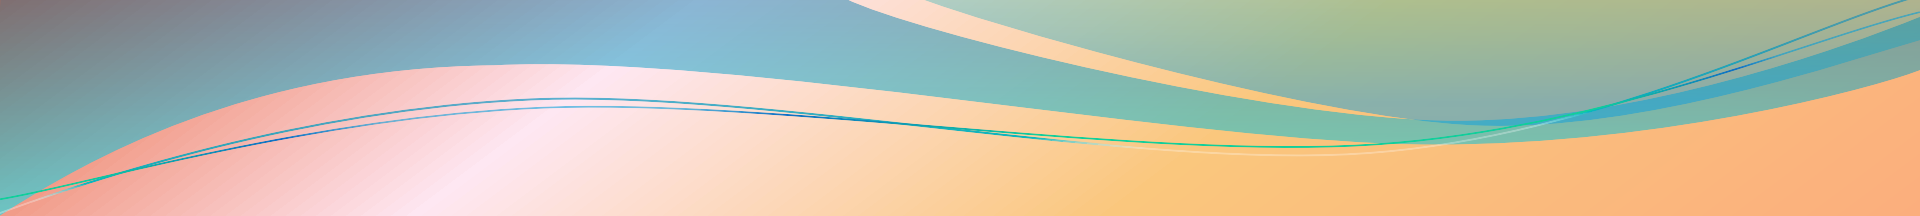

Some Glimpses of the Gurgaon NFE Center

Case Study- Non Formal Education Center in Virar East

Virar is a small suburban city situated 60 km away from Mumbai. There is a huge mountain in Virar and the Jivdani temple on top of it. Resembling the hugeness of the mountain but ironic to the modernity of the dream city, Virar houses a huge eye grabbing slum area called the Arnapada. The makeshift temporary tents make the area wide giving a disastrous impression of its own. While surveying, we found that the place lacked transportation, clean water and sanitation. Hence, our organization selected this place to begin with a whole new phase of education and development.

As part of the initiative we established a Non Formal Education Center in Jivdani ,Virar (E),Mumbai. It is a backward slum area in Virar which needed a boost in literacy. Many illiterate labor class families reside here. They have to struggle for a living. Since they reside in a slum area, the children in the area are deprived of education and guidance. Even though there are schools in the city there are problems of transportation and finances as most of them can't afford the expenses.

Dream Girl Foundation hence conducted a survey figuring out the children not going to school. We accordingly found a small place in the slum itself to start a study center. A well qualified teacher was appointed to provide the children with basic education required. The teacher was also made responsible to convince the parents of the children by moving from door to door by enlightening the importance of education in life and highlighting its benefits.

In addition, DGF ensures the parents to have a successful future of their children by taking utmost care about the admissions for high school education. By doing this, we feel, that the deprived ones will endure in the society and have all their necessities get fulfilled like other kids.

Some Glimpses of the Virar NFE Center

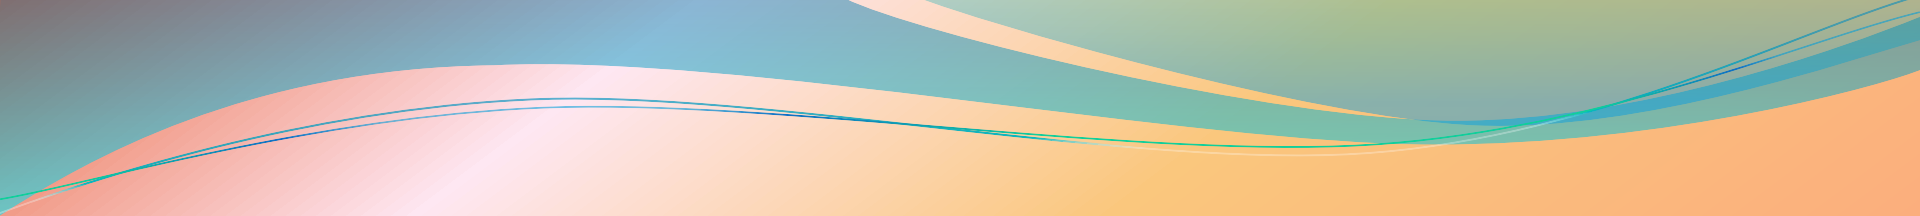

Estimated Cost of A Non Formal Education Center

*The Estimated Cost of a Non Formal Education Center is Rs.12,00,000 (Twelve Lakh Rupees Only) per annum. We are proposing the sponsorship of Center for 3 years So total sponsorship cost will be of **Rs.36,00,000.***

Estimated Itemized Cost

Expenses	Amount in Rs.
Preliminary Expenses	1,47,000
Rent of Center (12 x 7,000)	2,25,000
Teacher's Salary(12 x 10,000 x 3)	3,60,000
Stationary Charges	2,43,000
Refreshment for children	1,80,000
Administration Charges	45,000
Total	12,00,000

❖ *If you give food to someone, it would help her for a day. If you give a few pennies to her, she would use it for a couple of days. But if you educate her, it would help her till her last breath.*

❖ *Educating a boy will just educate him but educating a girl child will help her entire family to get educated.*

❖ *We together can help a child to get quality education.*

❖ *This would not just educate her, but also help her to develop socially, psychologically, financially and help her stand on his own feet.*

*So,
PLEASE come forward
&
help.*

*Even a single rupee
can help change lives.*
