the Perennial Fellowship

- Is a transformative leadership program that goes far beyond and much deeper than developing skills and building networks.
- Is specifically designed to help leaders reconnect to what matters most—their deeply rooted inspiration, the purpose of their work, and their loving commitment to their communities.
- Skillfully integrates authentic conversations, inner-exploration, and true fellowship with other powerful social leaders.
- Applies all learning to real leadership challenges and life experiences.
- Brings together leaders at the forefront of social change in Africa, Latin America, Asia-Pacific and the Middle East.

Perennial helped me to grow professionally as a leader. This program gave me the tools to better lead my team and made it possible for me

to work more efficiently with everyone. The experience I found in being part of a global community, meeting social change leaders from other countries, and sharing stories and ideas truly strengthened my spirit to continue doing the work I do to improve my community.

—ESTELA SIMAJ, GUATEMALA

The Perennial Fellowship was about me. It was about refinding my purpose, my vision and reconnecting to why I do what I do. I personally became more aware on how to lead with consciousness, and to have an open heart and mind. I have attended many other trainings in my life that were overly technical and that really lacked the essence of being connected to myself. Perennial, on the other hand, has given me the true tools to be an inspirational leader for my staff and the communities we serve.

—AARON BUKENYA, UGANDA

The people who come to Perennial are profoundly committed to improving the lives of others, and to the well-being of their communities.

Their actions influence hundreds, thousands — millions of people. They are often the bearers of innovation, the keepers of deep and meaningful stories, the catalysts for change in their communities, yet they do not all have a job title associated with their leadership. Thus Perennial exists to serve the leadership development in all people who are serving the unmet needs in their communities, building movements, and growing social businesses.

Perennial creates a space for leadership development with an uncommon approach

Perennial consciously designs and facilitates experiences for social leaders to help them thrive as lifelong leaders. We understand that they must know how to live in joy and inspiration, balanced, aligned and grounded, if they are to sustain their work. Our programs are a transformational opportunity to bring deeper meaning and understanding to the theory and practice of leadership. Our participants find greater purpose in their lives, clarity and skill in the work they lead, and connection to the communities they serve.
