

Hope for Us

**104 Years of empowering Filipino Amerasian children
through education**

“Hope for Us”

2025 has been a year of building the PAGA community and amplifying our voice. More people pitched in to help the children in various ways, through sponsorships, donations, training, or sharing our story.

It has also been a year of revisiting our program and exploring ways to achieve a better financial position. And we have made little but significant steps to get there.

Hope for all
seasons

Highlights for
2025
