

“Love in the Time of Crisis”
June 2026

Surviving in a
crisis

**FUEL SHOCK IN
SOUTHEAST ASIA:
PHILIPPINES HIT
HARDEST AS PETROL
PRICES SURGE 177%**

The challenges for our beneficiaries and their families

Crippled purchasing power

Absenteeism or dropping out by students due to increases in school supplies, transport fares, and need for higher daily allowances

Spikes in the prices of basic needs like rice, vegetables, eggs, and others due to surging logistics and production costs

Involuntary hunger among vulnerable families forced to compromise nutrition

Anxiety and stress

Cutting off power and water due to the inability to keep up with increased rates

Silver lining

Community outreach
for beneficiaries and
their families

Empowering Parents: Cold Process Soapmaking for Livelihood

Distribution of hygiene and sanitation kits to 200 families in NCR, Olongapo and Pampanga

Donation of a sack of rice for 100 families

Making it to the Finish Line

Your support afforded continued attendance at school by our beneficiaries. For the 2025-2026 school year, more children reached that Finish Line with A and B+ averages. They were under PAGA's wing since elementary. And today, with their hard-earned college degrees, the children are now on their way to a new chapter—a happy beginning for Filipino Amerasian children left behind.

And 12 beneficiaries are moving up to the next grade with honors.

BS Nursing

BS Information Technology

BS Tourism Management

**BS Nursing
magna cum laude**

**BS Tourism Management
cum laude**

Note: graduation will be in July and no graduation pictures yet

On behalf of the Board of Trustees and the beneficiaries:

Our gratitude for your love during a crisis

Just knowing that people are cheering them on has kept them going despite this crisis.

Your legacy of love shall make an impact even beyond the finish line.

More than 100 years of empowering less fortunate Filipino Amerasian children
