WHAT DO WE DO

We offer a comprehensive care program aimed at 100 children in conditions of high social risk, we intend to improve their living conditions from the perspective of the promotion and protection of their most basic rights, we develop 12 comprehensive assistance programs and other activities that favor their growth and personal development, we try to offer more and better opportunities such as education, health, nutrition and other programs of consolidation and consolidation of the integral care that the organization proposes for each boy and girl that is assisted in this project.

HISTORICAL BACKGROUND OF THE PROJECT:

The organization began its operations in the City of Camoapa, Department of Boaco on February 4, 2004, with authorization and endorsement of the Ministry of Family, Childhood and Adolescence, institution responsible for policies and strategies for child care. by the State of Nicaragua.

The project emerged as an initiative of various sectors of the community of Camoapa concerned about the difficult conditions lived by a large number of children, polishers, street vendors, minors without opportunities to attend school, presence of abuse, abandonment, desertion school, drug use, family disintegration and other causes that evidenced the life of many children at high social risk.

Casa de los niños que atendemos

The initiative of the community sectors was received by three altruistic Ladies of the United States, who appropriated the idea and made the decision to create and found what is now the Luceros del Amanecer Home Organization, we started with 08 children and we were gradually growing to provide assistance to 100 children and an expansion of educational programs.

BENEFICIARY POPULATION GROUP

THE PROJECT BENEFITS THREE SEGMENTS OF POPULATION

- First of all, the 100 children who are benefited in the primary and secondary school modality and the scholarship students, the primary and secondary school children receive all the services offered by the project and the children who receive scholarships only the school materials and school follow-up.

"Estimados amigos, mucha gente pequeña, en lugares pequeños, haciendo cosas pequeñas, puede cambiar el mundo."

"Juntos podemos hacer más! ..."

FUNDACIÓN CIVIL HOGAR LUCEROS DEL AMANECER

(Celebrando 15 años de servicios)
www.hogarlucerosdelamanecer.org

- In the second place, there are 67 families benefiting abundantly with an average of seven people per family, that is to say 469 people of the children who are directly benefited, we refer to the mothers, the sibling parents and relatives who come to the center to integrate and participate in different family strengthening activities, educational talks, family reunions, adult education and other activities where family members have an active participation. Remembering that all the families we serve live in extreme poverty, the conditions are alarming.

FUNDACIÓN CIVIL HOGAR LUCEROS DEL AMANECER

(Celebrando 15 años de servicios)
www.hogarlucerosdelamanecer.org

- Thirdly, we have a very broad population segment; the project in its 12 comprehensive care programs has a component that we call COMMUNITY SOCIAL SERVICES, which basically involves the attention to students of the different educational centers that present behavior or learning problems, attention to women victims of domestic violence, attention to pregnant women of maternal house, to the project come a number of people from all social strata of the community to request the services we offer to the population in general, likewise we develop cooperation actions with the San Francisco de Asís Primary Hospital with the program for pregnant girls and adolescents and the collaboration of volunteers in the different health activities of this health center.

Comprehensive assistance programs

EDUCATION

Education is par excellence the most important activity that we promote in the comprehensive assistance program, the fundamental reason for the existence of this organization is the integration to the different educational actions of each of the children, we must remember that 85% of the minors attended were out of the school system due to various difficulties, including a marked disinterest of the parents. In this context we develop the following educational activities proper.

- a) Integration into primary education of 67 boys and girls, all studying at home.
- b) Integration in Secondary education of 14 boys and girls who have finished primary school.
- c) We manage scholarships for young people who attended primary and secondary school and decide to study at the University.

- d) School reinforcement for all primary and secondary school children.

Providing all children with each and every one of the educational materials that children require throughout the school year, shoes, backpacks, uniforms, notebooks and other school accessories.

- a) a) English classes for all elementary school children, we have a contracted Master Teacher with excellent academic qualities.
- b) b) Computer classes for primary school children.
- c) c) Library services with bibliography in Spanish
- d) Library services with bibliography in English.
- e) e) Internet services for children to do their academic research.

HEALTH

Health is also one of the activities of vital importance, we try that children are always in optimal health conditions, for it comes monthly to the center pediatrician of San Francisco de Asis Hospital to care for children who have any condition of health, with the help of the Hospital we also guarantee the indicated medications, we have control of weight, height and growth and the respective clinical files, likewise the Dentist of the same Hospital arrives once a month to provide dental assistance to the children that also includes talks and other events related to oral health.

These services are being extended to the program of pregnant girls and adolescents that we are developing together with the San Francisco de Asís hospital and other public institutions of Camoapa, we are also promoting with international cooperation organizations the arrival of volunteer doctors to collaborate in the activities of the san francisco Primary Hospital of Así, as well as the arrival of medical brigades and medical supplies and materials.

FUNDACIÓN CIVIL HOGAR LUCEROS DEL AMANECER

(Celebrando 15 años de servicios)
www.hogarlucerosdelamanecer.org

NUTRITION

95% of the children we serve come from homes where food shortages prevail, some of them arrive at the center in a high state of malnutrition, therefore, nutrition becomes not only a necessity to recover their nutritional status, but also a determining factor to enter and remain in the project. Depending on the nutrition of the children and the stabilization of the ideal weight, we provide a snack at ten in the morning, a lunch at noon and another snack at three in the afternoon, every three months we take control of weight, height and increase.

 🌐 <http://www.hogarlucerosdelamanecer.org/>

VOCATIONAL TECHNICAL TRAINING

All children who reach the age of 14 or 15 years are integrated into two modalities of vocational technical learning, the first option of technical training is the practical learning of a trade in a workshop that he chooses preferentially after two or three years of learning the same workshop where he learned the trade becomes an employer, where he starts earning money to help the family's sustainability. The second option is to attend theoretical and practical training courses given by the National Technological Institute and finally receive a diploma that accredits them as graduates of the technical career where they have completed their studies.

FAMILY STRENGTHENING

We conceive the family as the natural and fundamental nucleus for the development and growth of children, all the children we serve come from broken families, with a lack of education, where abuse prevails, lack of basic services, alcohol consumption and sometimes drugs, this is how we intend to influence the improvement of family conditions, we do it through individual attention, psychological attention, educational talks, adult education programs, apprenticeships, material assistance management, roof, land, latrines and other activities that contribute to the strengthening of the family.

We serve 66 families and 20 pregnant girls and teenagers with whom we develop family strengthening activities mentioned above.

(Celebrando 15 años de servicios)
www.hogarlucerosdelamanecer.org

SPORTS, CULTURAL AND RECREATIONAL ACTIVITIES

These activities are an authentic expression to promote the development of the talent that each child has, so in the weekly work plans we plan various sports activities and competitions, in the cultural area we have perhaps the best dance group of the City of Camoapa, Children and children attend various cultural events where we are invited at local, departmental and national level.

COMMUNICATIONS PROGRAM

Thanks to the cooperation and collaboration of the local media, we were able to acquire two radio and television spaces free of charge in 2016, which we took full advantage of to interact with the community, massively disclosing each and every one of the activities we carried out in the project, but also to disseminate various community activities such as crafts, stories unknown to the community, interviews with characters, social events of interest, reports, stories and anything that is of community interest that is not promoted in other radio and television programs.

The protagonists of both programs are the children of the project, speakers, presenters, reporters, editors and everything else related to the programs. Both programs have an extraordinary audience both at urban and rural level, what is interesting for the population is the quality of the programs, is that children are in the front line of action

www.hogarlucerosdelamanecer.org

SPONSORSHIP PROGRAM

It is a program that we started two years ago with the intention of seeking greater national and international support therefore we look for long-term financial stability.

The main idea in the search for sponsors and godmothers for each of the children cared for that can contribute to the cats that implies the sustainability of the comprehensive care program, supported by education, health, nutrition, sports, cultural, recreational activities , family strengthening activities and other complementary activities that project a program of assistance and promotion of the rights of children, the program is progressing, we have 22 children who have their sponsors in Nicaragua, Argentina, Spain and the United States

The way to do it is as follows: when we have a person interested in sponsoring we send the proposal of 4 children with photographs and the profile of the child describing, part of their life, family aspects and other particularities, the godfather or godmother can Your own decision to choose.

The godfathers to godmothers make a contribution of US \$ 20.00 (twenty dollars a month) that are used to cover part of the services that children receive, comprehensive education, health, food and other complementary services, all godparents and godmothers make their shipments via WESTER UNION AND MONEYGRAM, then we send to each sponsor a receipt that records the receipt of the money and is deposited in the Home Banking account Luceros del Amanecer.

Every three months we send a report that contains important information about the child's life, personal growth, education, family, food, health and other important aspects.

We always try to ensure that children have communication with their godparents, Skype, emails, messages or other possible ways, also godparents can visit their godchildren as often as they see fit.

Programa LitWorld

The Litclub program is the main initiative of LitWorld, it is a reproducible model of social and educational interaction, Litclub is based on learning that stimulates self-expression, strengthens trust, compassion and focuses on friendship, we begin to develop this initiative three years ago with the collaboration of LitWorld International, we have seven Litclub, six integrated by children and one integrated by mothers and fathers of Family, seven mentors or facilitators with their respective formation and training in the development of the Litclub and its seven strengths In the year 2017, we take this service to three community preschools and in 2018 we will be supporting LitWorld's activities with three rural primary schools, at the request of the Ministry of Education of the Municipality of Camoapa.

PROGRAM "ONE LIFE AT A TIME"

It is a program specially directed to provide special and differentiated attention to pregnant girls and teenagers in critical conditions, high risk pregnancies, extreme poverty conditions and other factors that endanger the life and emotional stability of these young girls. We started this initiative in the year 2014-2015 and discontinued the program due to lack of funding from the United States SG organization, then in 2018 with funds from a Canadian organization we restarted this initiative serving 20 young women, 10 pregnant women and 10 that are in the preventive care model.

The program includes care and nursing care, integration to education, apprenticeship, nutrition, psychological care, preparation for childbirth, family strengthening, accompaniment at the time of delivery, purchase of medicines that the hospital does not have, purchase of clothing from BB and one year of early stimulation.

NATIONAL AND INTERNATIONAL VOLUNTEER PROGRAM

The volunteer program NICASOLIDARIDAD is a program that basically has as its fundamental mission to offer opportunities to all those people of the world with a supportive heart who are interested in sharing and giving the best of themselves to people who need it most, such as children lacking opportunities and the most fundamental rights that favor a promising future in their lives.

The program seeks volunteers not only for the activities of Hogar Luceros del Amanecer, but also for other social organizations in the city of Camoapa that promote community social services. Through this program and other organizations at the service of international volunteers from Spain and the United States, more than 350 volunteers from different nationalities have arrived to support education, technology, psychology, social work, nursing, agricultural activities, culture and other project activities.

SOCIAL SERVICES TO THE COMMUNITY

The Luceros del Amanecer Home since its foundation has been fully identified as an institution committed to the community, not only in the area of childhood, but also in the social services we provide to other institutions, especially gender violence, the mother's home, SAN FRANCISCO DE ASIS Hospital, children and people with disabilities and the problems of public education centers.

VIVERO Y FINCA BOSQUE VERDE

It is a property of 12 blocks that we obtained about ten years ago with the idea of projecting it as a learning center for children and an alternative of self-sustainability.

Throughout twelve years we have dealt with an intense process of profound transformation in the administration of the farm in areas of strengthening its development and turning it into a tool that generates resources that contributes to the sustainability of the project..

In more than twelve years of intense work we have managed to develop a 100% organic farm, all insecticides and fertilizers are based on the organic material we produce on the farm, we seek a healthy production, we try that children learn to harvest friendly products with health, but also a community that learns from us, on the farm we develop the following agricultural actions:

agricultural actions:

a) The GREEN BOSQUE nursery is one of the main activities of the farm, we maintain an inventory of some 25 thousand plants for sale to all public, institutions and organizations, we also make donations to projects that promote environmental protection projects.

b) Cultivation of two thousand fruit

trees of various specials, 60% of these trees are in production, the products are consumed by children, we also donate fruits to other related institutions.

c) Small-scale vegetable production.

b) Small scale humus earthworm production

c) We have a small pig farm for breeding and sale in the community of Camoapa.

d) Aging and fattening of danger.

FUNDACIÓN CIVIL HOGAR LUCEROS DEL AMANECER

(Celebrando 15 años de servicios)
www.hogarlucerosdelamanecer.org

PROJECT RESULTS:

- Throughout 15 years we have managed to build an institution with a high prestige before the community and its institutions, for the hard work in favor and benefit of the most vulnerable communities.
- We have an institution with solidity and institutional strength from the perspective of legality and its operating structure, this process is consolidated and we conclude it in 2017.
- We have managed to project an institution with high levels of transparency, recognized and endorsed by donor organizations and people who have collaborated since its founding in 2004.
- Thanks to the prestige of our institution and the services we offer, we have been able to build solid relationships with various public and private entities.
- In the course of 15 years of work we have helped to improve the living conditions of hundreds of families.
- We have brought hundreds of children who could not do it before because of poverty and the limitations of their parents' resources.
- More than 20 boys and girls have achieved bachillerarse thanks to the help and the school follow-up they have received.
- At least 30 adolescents have managed to complete the apprenticeship of a trade and today they are working and generating benefits for their families.
- Hundreds of children without this project would surely have taken the wrong direction in their lives.
- Hundreds of general medical and dental care to improve the health conditions of each of the children, including specialized care in the City of Managua and purchase of medicines.
- We have saved life that perhaps could not have survived hunger and misery in their homes of origin. (example of children who survived the garbage dump of Camoapa)
- The individualized training and the entire learning process that each young person takes when he / she leaves this project.
- We have substantively improved the academic levels of mothers and fathers from getting them out of illiteracy until the approval of their primary school.
- We have managed 35 roof plan programs for families of children living in very poor conditions.
- We manage various latrine projects to improve the health and hygiene conditions of families.
- We accompany hundreds of families to solve various personal situations before government and private institutions. (alimony, allegations of abuse and more)
- With the coordination of Operation Smile, at least 65 children, adolescents, young people and adults were able to perform cleft lip and cleft palate operations in the City of Managua, coordinating advertising, transportation, lodging, transportation, per diems and more.
- We have offered dozens of psychological care to women victims of domestic violence, hospital patients, students and other people in the community.
- With the dance group of the children we have entertained a considerable amount of social events, solemn acts, school events, celebrations and other activities.

FUNDACIÓN CIVIL HOGAR LUCEROS DEL AMANECER

(Celebrando 15 años de servicios)
www.hogarlucerosdelamanecer.org

- We have coordinated and guaranteed more than 600 specialized care services for people with disabilities, through the chapter pipitos in Camoapa, pedagogical medical institute in Managua and specialist brigades that we manage in the United States.
 - We work to encourage both children and the community to be aware of the protection of the environment and the need to promote reforestation activities. We have reforested several public institutions (hospital, police, schools and others) as well as the donation of hundreds of plants to projects that promote reforestation activities such as the Club de Leones and others.
 - Through our radio and television programs we share everything we do with the community, but we also promote artisans, musicians, characters, literary works, ephemerides, forgotten tourist places, but also children learn radio and television .
 - We have given the opportunity to more than 350 volunteers of different nationalities to share and learn, to demonstrate their solidarity and their altruistic heart by teaching and values to people with diverse needs.
 - Two girls have had the valuable opportunity to participate in a world summit held in New York in 2016 and have the experience of sharing with hundreds of diaries from different countries of the world.
- THE RESULT OF HIGHEST IMPACT IS THE OPPORTUNITY THAT GIRLS AND CHILDREN RECEIVE TO IMPROVE AND TRANSFORM THEIR LIFE CONDITIONS IN A PESONAL PROSTHEITY HAMBIENT.
