### PLANT-BASED MEALS FOR INDIGENOUS YOUTH

---

2020 turned out to be a phenomenal year for us and the indigenous youth in Taiwan! We want to thank everyone for their support, including our sponsors based locally and our friends who generously funded us through Global Giving.

We were able to host conduct at least 10 creative education workshops serving plant-based meals for indigenous youth in Hsinchu for the Chingchuan tribe and FUKID tribe in Taitung. Pairing plant-based meals and education made sure that we maximized our time with the youth.

Through our courses, different cultures and meals were introduced, some of which we made with the children themselves. Empowering them in the kitchen and also giving them a chance to taste the cuisine from different countries provided them with an invaluable experience.

from making sushi, guacamole for burittos to experiencing afternoon tea delicacies from India, Japan, the UK, to sampling a Thanksgiving platter with mashed potato with mushroom gravy, kids experienced amazing cuisines.

Bright Side Projects also was able to provide year end necessities and plant-based food staple deliveries for the communities. This supported at least 23 families in Taitung and Hsinchu, each provided with necessities pack valued around \$200 USD of staples including mylks, jerky, and 225 KG of organic rice sourced from local organic farmers in MiaoLi.

We want to thank you to all of our Big Friend volunteers in the year of workshops, gifting, and deliveries to families and children. We also want to thank our local contacts in each location for making it possible to coordinate for workshops, delivery so that kids could continue to feel connected with us.

**THANK YOU!**
