PRESENTATION OF THE ORGANIZATION

Humanitarian, Development and Human Rights; DRC AID is an apolitical, non-denominational non-profit organization working in the DRC. Created in the Democratic Republic of Congo in 2010, the association is legally registered.

Its mission is to carry out concrete projects on the ground for vulnerable people. The projects to be carried out is identified and designed by the beneficiaries or the communities and meets the needs expressed by the beneficiaries or the communities themselves.

Our achievements are concrete, innovative, sustainable and contribute to change well, improving the living conditions of the target populations or beneficiaries.

Our targets are in the areas: the child: access to education, social protection, access to fundamental rights, legal support ... training projects, meetings with political decision-makers, the constriction of centers and schools , education and school supports ... are realize explaining the family members or the dependents of the children.

Climate change: capacity building for vulnerable communities, pilot projects with communities on adaptation and control through tree placentations and the Carbonne project, promoting the deployment of agroecology.

Democracy and Governance: admissibility; transparency, fight against corruption through sessions of information trainings; transfer of new techniques ...

Economic development: micro project, training, new methods and technique, support; Disaster Recovery, Education, Environment, Health, Human Rights, Humanitarian Aid, Hunger, LGBT, Women and Girls. Titre du projet : Réhabilitation de 6 salles des classes pour 200 enfants orphelins d'EBOLA et des guerres au nord kivu en RDCONGO.

Project summary :

The present project seeks to support the orphaned children of EBOLA and wars in NORTHERN PROVINCE KIVU, part the rehabilitation of 6 classrooms in BENI territory, for 200 children, training of trainers for 6 teachers and 1 director of the school , equip classrooms built and pay school fees for the first trimester for these children, train women responsible guardians of these children in micro credit to ensure the continuity of education of these children.

Several orphaned EBOLA children and wars in age to attend primary school, remain out of school and the others have never been to school.

They are without support, suffer more and more discrimination and stigmatization, since the loss of their parents, following the virus disease EBOLA and the Wars of the armed groups. Two great scourges that significantly undermine the TSE of the DRC and which are not yet eradicated. The majority of these children live in host families in conditions, socio-economic and very precarious school.

Context of the project :

For years, the Ebola virus has invaded the east of the DRC, in less than 2 years this disease has killed more than 1900 people. This disease, which has not yet been eradicated, has met with another plague, also merrier, which is war. These two combined plagues plague the province of North Kivu, South Kivu, much more the region of BENI in particular and the DRC in general.

The existence of these two scourges: EBOLA and wars have been trades low infrastructures destroyed at the occurrence of schools ...

Many of the parents have lost lives and the number of orphaned children has increased significantly. These two plagues continue the path of the dead.

The numbers of orphaned children of EBOLA and war are increasing from day to day. The majority of these children live in host families in extremely precarious conditions and the majority of these children do not attend primary school or drop out of school due to their vulnerability and lack of support.

Given the destruction of a large number of school infrastructures and the deterioration of the socio-economic fabric in this environment, the majority of these children no longer have to go to school while nursery, primary and secondary education ... in the DRC remain totally in charge of the parents, who some live in the state of vulnerability. Those who bring those without parents or orphans to suffer, victims because they no longer have parents who struggle for their schooling.

Project activities:

- Rehabilitation of a school of 6 classes and an office,
- Training of trainers for 6 teachers and 1 Director
- Equip the classrooms,
- Registration of children in primary school
- Training of those responsible for monitoring children,
- Training in micro credit management for women responsible for these children,
- Monitoring and évaluation
- Writing and transmitting reports as the project runs.
