

THE ELIZABETH ECONOMIC AND SOCIAL WELFARE INITIATIVE (EESWI)

Organizational Profile

The Initiative is a feminist Non-profit NGO Headquartered in Dar-es-Salaam and was registered on 26/07/2013.

The organization was established and is led by girls aging 27 years and above one of whom grew up as an orphan.

In this world, women and girls (especially orphans) are deeply marginalized while some plants and animals are facing extinction. Hence the initiative is set to bring needed change.

Its **vision** is “The world of high human dignity and well conserved wildlife.”

The missions are:-

(1) To build the capacity of the poor to reduce poverty and improve their standards of living through income generating activities.

(2) To raise people’s knowledge about human rights, child rights and gender equality.

(3) To conserve plants and animals.

This is the reason why projects of the initiative are located near national parks and game reserves especially the Serengeti national park where there is a diversity of wildlife.
