

Let's plant a seed of hope, together.

About Esperanza Urbana

Esperanza Urbana is a Costa Rican association whose mission is to provide hope and opportunities to young males living on the streets of San José. Founded in 2017 and incorporated in 2018, Esperanza Urbana strives to provide support in all the stages necessary for young men experiencing homelessness to successfully re-enter their communities.

Continuity of Care

Our 'Continuity of Care' model shows all the stages in which Esperanza Urbana strives to offer support.

Rehab Sponsorship Program

Our Rehab Sponsorship Program focuses on supporting those from the street through Detox and Rehabilitation.

In 2019, Esperanza Urbana began collaborating with Generacion Victoria, a rehab center located in Puriscal, Costa Rica. Through outreach work, we have been able to utilize this collaboration to evaluate and get people from the streets into rehab. The time of the rehab program is nine months in which people from the street develop skills they need to enter and maintain recovery.

Facts

- Over 100 volunteers in action.
- Over 3,300 meals served by our outreach program.
- 13 people gained employment.
- 5 people currently going through rehabilitation.

Helping one person may not change the whole world, but it may change the whole world for that person.
