

### Medical Services and Missions!

We are embarking on a project to bring quality medical care to a Village known as Kyamasongi, just East of the town of Fort Portal, Uganda.

The need for medical services in this region is enormous.

We own land in this rural location, and it is here that we plan to build a level three medical facility.

A few miles away, closer to the town of Fort Portal, we have another plot of land where we will build a guesthouse/ community center. It will be a sustainable income-producing business, employing local workers and helping to fund the medical clinic. It will also be an ideal location to host health seminars, medical trainings and other community outreach events.

We will be taking medical teams over to Uganda regularly.

If you are interested in this project, or would like to join us on one of our mission trips, please contact us for a more information!

Mission trip applications can also be found on our website.

Thank you for your support!
