RE: Hurricane Dorian

SEP 4, 2019 - Charlotte, NC –

The US Veterans Hall of Fame's natural disaster team will be deploying all of it's manpower and resources to the affected areas of coastal Georgia, South Carolina and North Carolina for Hurricane Dorian rescue & relief efforts.

We have activated ourselves as a mobile response team to assist in the evacuation, rapid response and debris efforts alongside willing and needing counties in the wake of Hurricane Dorian.

The usage of our military veteran crew, totaling 6-8, has been instrumental in helping with rescue efforts (in previous storms) and made useful in providing first aid equipment and first aid response due to the high call volume that surrounding counties EMS, police and dispatch experience: thus helping them by being the eyes to assess and let them know the true level of some of their needs, as they are stretched thin.

Though the overall activation of our crew is volunteer, it comes with costs and we normally assume those costs of our own free will and are not contracted with FEMA or other such government entities.

To get more information, please contact: Curtis Drafton at (404) 490-8105 **please understand the problem with cell phone coverage and lack of electricity in these areas at times, as calls may not immediately connect. However, your messages will be replied to as soon as convenient.*
