

Subject: Request for a donation to build school for children diagnosed with ADD/ADHD in South Africa

Dear Sir/Madam

We are a Non-Profit Organization based in North Riding, in the City of Johannesburg, South Africa. We are registered with and regulated by the South African Department of Social Development under the Non-Profit Organization Act 1997 (Act 71 of 1997) and our registration number is 232-386 NPO.

We are writing this letter to you to request a donation towards our fund raising campaign aimed at creating awareness and building a school for learners diagnosed with learning disorders more specifically, Attention Deficit Disorder (ADD)/ Attention Deficit Hyper Disorder (ADHD) living in Cosmo City, Zandspruit, Muldersdrift, Diepsloot, Kya Sands, Bloubastrand and Honeydew areas. These areas have a large number of poor households where parents cannot afford private schooling for their children with learning disorders and the State provided schools in these areas the children are on average 45 or more per class due to overcrowding and children with learning disabilities need classes with smaller numbers as well as individual attention to thrive which our current Public School System cannot provide. In addition to the learning disability challenge most parents, caregivers and teachers in the township areas do not understand the children's diagnosis resulting in the children being labeled as slow learners or having an attitude towards learning.

The current dropout rate in our township schools is alarming high, South African National Statistics shows that on average only 30% of grade 1 learners complete schooling in the set 12 year period and achieve a high schooling diploma. Our aim is to keep the children with learning disabilities in school and teach them lifelong skills that will benefit them in their future careers. We are planning to build a Primary School and a Technical High School that will cater to the children's needs, in an area closer to their homes and that will be affordable for their parents/guardians.
