### WINTER NECESSITIES FOR TAIWAN YOUTH & FAMILIES

2019 is the tail end of an amazing year that has seen the rise of Bright Side Projects and our continued work in the community. We are building a comprehensive support system for our youth and young adults and this can only happen if everyone takes part. Our "Winter Necessities & Meals for Taiwanese Children" although we did fall short of our goal via GG, we were still able to impact youth and families on the ground with help of local Taiwanese donors and supporters and sponsors.

Each family may have 1-5 children / 3 of the families in Taitung were targeting senior citizens, some are in a vegetative state in which we provided diapers as requested). All items proved were plant-based; organic and supporting local farmers whenever possible, purchasing high quality items. We used no extra packaging or upcycled shipment paper with no-tape no-plastic zero waste for gifting when required.

As this is a seasonal campaign targeting year end activities, it will currently come to a close until our Winter 2020 campaign, but there are ongoing programs that provide plant-based food staples and creative education to our kids all year round since we know that a long term investment is what is needed for the future.

This supported at least 20 families in Taitung and Hsinchu, each provided with necessities pack valued around \$265 USD of plant-based food staples including pork floss, mylks, dry noodles, jerky, fresh organic sweet potatoes and vegetables, and 520 KG of organic rice sourced from local organic farmers in MiaoLi.

We want to thank you to all of our Big Friend volunteers in the year of workshops, gifting, and deliveries to families and children. We also want to thank our local contacts in each location for making it possible to coordinate for workshops, delivery so that kids could continue to feel connected with us and we could meet with their families every year end.

**THANK YOU!**
