

NOURISH.
EQUIP.
EMPOWER.

WE BRING HOPE

Project Matthew 2335 is a non-profit, Christ-centered food foundation headquartered in Kampala, Uganda. We bring hope to vulnerable communities by providing emergency food assistance through our Nourish Program. We empower people to be self-sustaining and food secure through our Farmer Entrepreneur and Garden to Plate programs.

WE RESTORE DIGNITY

We offer more than a hand-out, but an opportunity for people to change the trajectory of their lives. With each seed that's sown, we are breaking the cycle of hunger and malnutrition. **Join us as we nourish, equip and empower the people of Uganda.**

WE
ENVISION:

A HUNGER-FREE UGANDA

We see a future where the Ugandan people are nourished with healthy food, equipped with agricultural skills, and are empowered to be self-reliant through farming entrepreneurship.

HELP US LAUNCH

We are currently raising \$10,000 USD for start-up expenses which includes a large seed supply, agricultural tools and equipment, and an emergency food aid stock. This will also help us establish a permanent administrative office in Kampala, allowing our on-the-ground team to more effectively serve those in need.

Project Matthew take off!**

OUR PROJECTS

NOURISH

Provide nutritious cooked meals and emergency dry food rations to those most susceptible to hunger.

FARMER ENTREPRENEUR

Help provide farmers with training in agriculture, animal farming, farm management and storage techniques.

GARDEN TO PLATE

Give those in dense urban areas the opportunity to process, package and sell food products.

SEED CENTER

Help the Project Matthew Seed Center take root. It will serve as a research and training facility, and be the region's pioneer in food multiplication initiatives.

FOOD BANKER

Help establish a permanent food storage facility for the Nourish Program recipients.
