MARSOC HISTORY & MISSION

- U.S. Marine Corps Forces Special Operations Command (MARSOC) is the Marine Corps service component to the U.S. Special Operations Command (USSOCOM). Dating back to the Marine Raiders of WWII, MARSOC trains, equips & deploys task-organized, scalable & responsive Raider teams in support of Combatant Commanders & other agencies.
- Raiders conduct foreign internal defense, special reconnaissance & direct action missions across the globe as assigned by USSOCOM on a priority basis. Raiders train, advise, & assist partner nation militaries by conducting missions of Foreign Internal Defense.
- Raiders continuously deploy throughout the world due to Special Operations Forces being the nation's "Force of Choice," thus increasing the demands on Raiders & their families.
