2. Humanitarian Context

Children in Yemen have faced severe hardships since 2015 due to ongoing conflict. The current situation includes critical challenges:

- **Protection Risks:** High vulnerability to violence, exploitation, and forced recruitment.
- **Displacement:** Ongoing forced displacement, with many children living in inadequate camp conditions and lacking basic services.
- **Health & Nutrition:** High rates of acute malnutrition and limited access to healthcare, clean water, and sanitation.
- **Education & Psychosocial Needs:** Severe disruption to the education system and widespread psychological trauma among children.

3. Strategic Objectives

The project aims to provide safety and resilience through:

- **Essential Protection:** Establishing Safe Spaces and providing psychosocial support (PSS).
- **Awareness & Advocacy:** Educating parents and communities on child rights and the harmful effects of exploitation.
- **Capacity Building:** Training staff and volunteers in professional child protection standards.
- **Protection Networks:** Strengthening local and national networks to ensure a coordinated response.

4. Key Achievements (Jan - Apr 2026)

Despite limited funding, SORD has focused on high-impact protection activities:

- **Safe Space Operations:** Sustained a Child-Friendly Space (CFS) providing a secure environment for displaced and conflict-affected children until July 2026.
- **Psychosocial & Educational Support:**
 - Conducted **30 awareness sessions** led by female specialists.
 - Provided **psychosocial support** sessions for **50 children**.
 - Engaged **80+ children** in ongoing literacy and art activities (reading, writing, and drawing).
- **Material Assistance:**
 - Distributed **winter clothing** to **50 children** during the cold season.
 - Provided general clothing to **30 additional children**.
 - Supplied **80 children** with light nutritional meals during CFS activities.

- **Health & Nutrition Awareness:** Facilitated access to primary healthcare and vaccinations while promoting healthy nutrition programs to combat malnutrition.

5. Visual Documentation

- **Winterization:** Distribution of winter clothing to vulnerable children.
- **Recreational Activities:** Children participating in physical and intelligence-building games at the CFS.
- **Educational Support:** Group awareness sessions and literacy/drawing workshops.
- **Nutrition:** Provision of light meals during project activities.
