

Welcome to CFYDDI's Early Learning Centre!

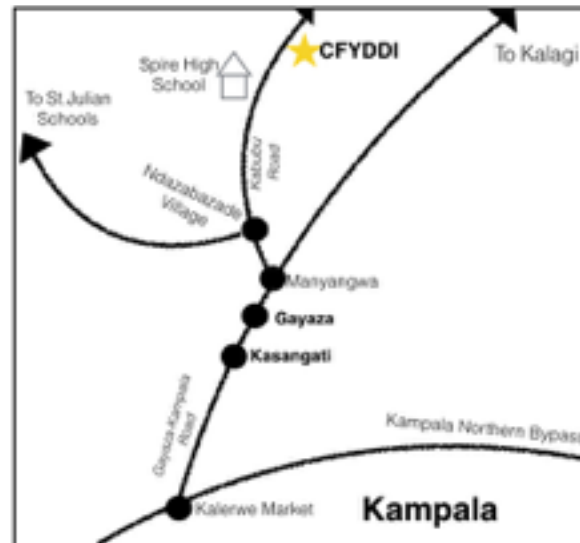

Our care program started in 2016 to provide education and life chances for the people of Ndazabazade and beyond. The program helps the most vulnerable people in the area.

Our Head Office

Please come visit us to learn more about CFYDDI and our Early Learning Centre! We are located in the Ndazabazade Village in the Wakiso District, just off Kabubu Road. Our nearest town is Gayaza. The distance from CFYDDI to Spire High School is approximately 50 metres.

Mission

To provide the highest quality teaching and learning through play and fun in a happy stimulating child friendly environment.

Objective

To develop good social habits, language communication skills, interaction and self-expression.

The program provides low cost pre-primary education to children that might not otherwise be able to afford school anywhere.

We provide child friendly games and a secure environment to support child growth and learning.

Currently our project comprises of an Early Learning Centre for children between 3-8 years of age.

The program next year, 2018, intends to start a primary section to accommodate those that graduate from top class to join primary after some who graduated last year failed to join primary school elsewhere.

Scholarship Program

To advance CFYDDI's commitment to promoting formal learning opportunities for youth, we operate a scholarship program. The program at primary level currently sponsors 7 primary children in boarding at high quality schools. Funding for these students school fees is provided by organizations from Austria and Canada.

Staff Members

We employ 6 nationals as teachers, class assistants, head, cleaners and a guard.

Volunteers, medical students, and intern students from around the world, when here, help us with our work while working at CFYDDI and the various surrounding health facilities.
