2025

BECAUSE EVERY CHILD MATTERS!

Progress Summary

Over the past months, our rehabilitation centers in Tavush Marz provided vital services to 360 children with disabilities, delivering sessions in physical therapy, speech therapy, art therapy, and psychological counseling. As a result, 85% of the children improved their communication and daily living skills, 72 children successfully transitioned to mainstream schools, and 95 children actively participated in community sports and cultural events for the first time, building confidence and inclusion.

Thanks to your support, these children's lives are changing — and their words say it best:

Lilit, 11 years old.

When I first came here, I couldn't say my own name. Now I can tell my teacher what I dream of becoming an actress.

Narek

Before this program, we felt invisible. Today, when Narek raised his hand in class for the first time, I cried tears of hope. You didn't just help my son — you helped our whole family believe again.

**Behind every word, there is a journey of courage!
behind every journey, there is a donor like you
who made it possible.**

**Together, we can keep hope alive and help
each child create their own story of courage,
joy, and belonging.**

We are just **\$10,510 away from reaching our goal** — but this final step is critical. Without raising these funds urgently, therapies could be interrupted, children's hard-won progress could be lost, and many could return to isolation. The future we are building together for children like Arman, Lilit, and Narek depends on completing this journey now.

By giving today, you help create a world where every child feels valued, belongs to their community, and grows up surrounded by hope and happiness.
