**1,221**  
IN ACTIVE TREATMENTS

**4,621**  
IN REMISSION  
(OBSERVATION)

**12,747**  
IN MORE THAN 30 YEARS

## MEET ALEJANDRO'S MOM

"I was born in San Cristobal de las Casas, Chiapas, and I lived and worked there all my life. I have three small children but recently, the middle one got sick. No one knew what was happening, so we had to take him to a hospital in Mexico City. There, they found colon cancer and referred us to CDLA, where we have received a lot of support in the process. Now, I see another way of life. I am infinitely grateful to the foundation."
