

VISION

Create leaders among students from underprivileged communities who grow up to become positive role models for others demonstrating that hard work and education can take you wherever you want, regardless of where you start from.

MISSION

We work towards our vision through a holistic program which:

- Develops students' abilities to analyze and solve critical problems by creating a shared vision with people in their communities.
- Provides them with ongoing mentorship support and trainings in order for them to initiate the positive change by starting a local project.
- Assists students in the choice and pursuit of a career.
- Inspires students to be constant learners and responsible citizens.
