

Gift a Smile Global Giving Report (2nd quarter, 2021)

Online classes continue.. Our schools continue to hold online classes for primary and secondary schools wherever possible and facilities available. Through the online classes, teachers are in touch with their students so that their learning does not-stop and teachers do their best to uplift and motivate the children.

Toilet construction and drinking water facility are being constructed for two schools in Rajasthan.

Distributed tablets pre-installed with instructional material to the Bangalore school students.

Online Project Pavithra Program

Telanga school conducted Project Pavithra program through online platform for the Higher Secondary girls. The program was for 3 days. It started from 16/03/2021 to 18/03/2021, the time when schools had reopened for a bit with social distancing in a few places. The girls were educated about menstrual health and hygiene. This program improved the girl's knowledge of personal hygiene and boosted their confidence by answering their unanswered questions through interactive and engaging training methods. They also provided information to dispel myths and taboos surrounding this issue.

It was a proud moment that students from different states of Art of Living Free schools participated in the **Olympiad Reading** and won trophies. Happy to share some names below.

Shivani Ahirwar
Sri Sri Gnan Mandir
Guna, Madhya Pradesh
Category (5-7)
