Coronavirus Relief Fund – Helping Family in Cameroon

The COVID-19 pandemic marks an unprecedented time in modern history that will require the best of humanity to overcome. The new coronavirus has taken thousands of lives and spread to nearly every country in the world.

Cameroon Government on Tuesday March 17, 2020 announced the closure of its air, land and sea borders in response to the new coronavirus pandemic. High schools, colleges and universities have been closed as a preventative measure to curb the spread of the virus.

Announcing the measures, Prime Minister Joseph Dion Ngute said: “All passenger flights from abroad will be suspended except for cargo flights and ships carrying daily consumer goods as well as essential goods and materials, whose stopover times will be limited and supervised.

Based on our research and lessons learned from our previous successful crisis response. Our response to COVID19 targets key areas of basic medical, food, health education and toiletries needs.

Your donation to this fund will help stop the virus's spread and give families and communities on the front lines of the crisis the resources they need to act quickly and protect the most vulnerable. Donations are helping to:

- Send doctors, nurses, and other front line responders to communities in need;
- Get masks, sanitizers, ventilators, and other lifesaving medical supplies to hospitals, clinics and health centres;
- Deliver essential items to struggling families and older individuals in quarantined towns and refugee camps and;
- Feed children that rely on school meals as their only source of nutrition, support WASH awareness efforts.
- More and more… to reduce the spread of COVID19 and save human life.

**SODEIT has launched the fund to educate and assist the public about the importance of staying safe, distancing and Isolating from crowds, be safe and healthy. The population needs information, basic supplies and practical measures to protect themselves from the spread of the virus.**

This fund also includes the provision of basic toiletries, food and medical supplies - soap, sanitizers, masks, and Dettol (disinfectant). This is to ensure that families have what they need to protect themselves. From our experience, the practical provision of relief items (basic food, education and medical essential supplies) results in a better application of staying safe and be healthy (as opposed to simply providing instructions).

**SODEIT Calls for Immediate Assistance to Families and Communities Impacted By the Coronavirus Pandemic in Cameroon**
