## Covid-19 Humanitarian Relief in India

RSKS India is always working for the betterment of the society at the time of any disaster, as we all commit ourselves to battle against the Corona Virus and it's new Mutations. We also did corona Humanitarian relief work like ration kit distribution, medical kit distribution, mass awareness, online campaigns etc. in the first wave of corona in India.

We are sharing some of our planned activities to fight against the second wave of corona as per below: -

- \*. Medical/Hygiene Kit Distribution to Frontline Workers
- \*. Ration/Food for Needy Families
- \*. Mass Awareness
- \*. Livelihood Support
- \*. Supporting Covid-19 Positive Patients and Families of Patients who died because of Covid-19.

### Summary

This COVID19 Relief project will provide Immediate & direct support for risk people of Coronavirus such Grocery Food Packet, Soap, Mask, sanitizer item, Hygiene Kit support to the 2500 daily wage workers, Homeless, Street & Slum families, who lost work and earning. Also spread awareness about precaution and prevention through awareness and counseling.

And RSKS Organization is distributing hygiene and medical kits to frontline workers for their safety which includes surgical masks, cloth masks, hand gloves, safety face shields, small and big hand sanitizers, etc and will distribute PPE Kits and N-97 masks.

### Challenge

Corona Virus has a devastating effect all over the world. Thousands of innocent people are dying due to this and number of infected people are increasing day by day. Poor marginalized, daily wage workers, Homeless, Street & Slum and nomadic people are not able to Hygiene kit, Foods & Basic need due to financial constraints. As a result, they suffer from adverse effects and their

life becomes like hell. In India the resources are limited and the daily covid-19 positive cases are rising day by day. While watching the current condition it seems like it is not going to end soon and will increase eventually and this is why health and sanitation workers are in dire need of this project.

### **Solution!!**

Dry grains, Hygiene kit, Foods Grocery Packet, Mask & Basic need and other necessary things will be provided to these CoronaVirus Affected 2500 marginalized and nomadic Families. Awareness about the virus and also providing them proper sanitization kit & Foods is an urgent thing to do.

And

our target is to distribute 2500 hygiene kits and medical kits to health workers & sanitation workers, police and front-line workers and with the help of this program 2500 kits will be distributed.

### **Long-Term Impact!!**

Destitute people will be saved from this epidemic situation and will have proper sanitizing kit which will help in not spreading of the corona virus. Rehabilitation would be possible and they will get support instantly. They will believe in humanity. Also, these poor people will get a bright light from a dark life.

With the help of this hygiene kit and medical kit, health and sanitation warriors will be able to perform their duties safely. Health workers will be able to take care of the patients more effectively and the danger of getting infection will get low. The use of Hygiene & Medical kit (surgical masks, hand gloves, face shields, small and big hand sanitizers, PPE Kits and N-97 masks) can prevent them from getting infected.
