

Healthy Food in a SNAP

Planting Day- June 17, 2020

Week 1

The plants grew. All the plants are different.

The peas grew. I planted 3 peas and only 1 grew big, one is starting to grow, and the third one is still a seed.

The zinnia are barely growing.

The okra is growing alot. The leaves are getting bigger. Some leaves look different.

The basil is still very tall.

6-24-2020

The Okra plant is changing and growing more leaves. At first, the color was light green and now it is darker green. I think it looks better now. The new leaves are growing in the middle.

6-24-2020

The basil plant is healthier.
The leaves are sticking up
now. I see more leaves now.
More leaves are growing
from the bottom.
